§ 3.4.4.1.2 The prevailing wage schedule is in compliance with *Tex. Gov't. Code § 2258*. Should Contractor at any time become aware that a particular skill or trade not reflected in the wage schedule will be or is being employed in the Work, whether by Contractor or by Subcontractor, Contractor shall promptly inform Project Manager of the proposed wage to be paid for the skill along with a justification for same and Project Manager shall promptly concur with or reject the proposed wage and classification.

§ 3.4.4.1.3 Contractor is responsible for determining the most appropriate wage for a particular skill in relation to similar skills or trades identified on the prevailing wage schedule. § 3.4.4.2 Complaints and Violations.

§ 3.4.4.2.1 ***Owner's Determination of Good Cause***. Upon receipt of information concerning a violation of *Tex. Gov't. Code § 2258*, Owner will conduct an investigation and make an initial determination as to whether good cause exists that a violation occurred. Upon making a good cause finding, Owner will retain the full amounts claimed by the claimant or claimants as the difference between wages paid and wages due under the prevailing wage schedule and any supplements thereto, together with the applicable penalties in accordance with *Tex. Gov't. Code § 2258.023*, such amounts being subtracted from successive progress payments pending a final decision on the violation.

§ 3.4.4.2.2 ***No Extension of Time***. Contractor shall not be entitled to an extension of Contract Time for any delay arising directly or indirectly from any investigation of a violation if Owner's investigation reveals good cause existed for the investigation or arising out of a determination pursuant to Section 3.4.4.2.4 below that wages were not appropriately paid by Contractor or any Subcontractor.

§ 3.4.4.2.3 ***Cooperation with Owner's Investigation***. Contractor shall cooperate with Owner during any investigations hereunder. Such cooperation shall include, but not necessarily be limited to, timely providing the information and/or documentation requested by Owner, which may include certified payroll records on Form WH-347 as promulgated by the U.S. Department of Labor, as may be revised from time to time and in unlocked and unprotected Excel format and copies of any and all Contract Documents between Contractor and any Subcontractors.

§ 3.4.4.2.4 ***Appeals***. In the event Contractor or Subcontractor elect to appeal an initial determination made pursuant to Section 3.4.4.2.1, Contractor or Subcontractor may do so in accordance with *Tex. Gov't. Code § 2258.023*. The Contractor and/or Subcontractor, as applicable, shall deliver notice of said appeal to Owner.

§ 3.4.4.2.5 ***Penalty for Violation***. Any Contractor and any Subcontractor who violates *Tex. Gov't Code § 2258* shall pay to the Owner a penalty of sixty dollars ($60) for each worker employed for each Day, or portion thereof, that the worker is paid less than the wage rates stipulated in the prevailing wage schedule.

§ 3.5 Warranty

§ 3.5.1 The Contractor warrants to the Owner that the Work will be performed in a good and workmanlike manner and that materials and equipment furnished under the Contract will be of specified quality, recent manufacture, and new. The Contractor further warrants that the Work will conform to the requirements of the Contract Documents, will be complete in all parts and with the required finishes, in accordance with approved practices and customs, and will be free from defects. Work, materials, or equipment not conforming to these requirements, including substitutions not properly approved and authorized, shall be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If required by the Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment. The warranties set out in this subsection are in addition to and not exclusive of any other warranties or guarantees set out in other places in the Contract Documents or implied under Applicable Law, or the Contractor's obligations under the corrective period set out in Article 12 below. Contractor's obligation to perform the Work in a good and workmanlike manner in accordance with the Contract Documents is absolute and no actions of Owner or Project Manager shall act to waive Contractor's obligations hereunder.

§ 3.5.2 Contractor shall furnish individual written warranties to the Owner for each product, building component, system, or equipment specified to have a written warranty and incorporating the warranty of this Section 3.5. Such separate warranties shall be deemed to run from Substantial Completion regardless of whether the product, building component, system or equipment was placed into service prior to Substantial Completion.

§ 3.5.3 If extended warranties in addition to those required by the Contract Documents are available from Subcontractors, manufacturers, or suppliers, Contractor shall advise Architect and Owner of such availability and the cost thereof and, if requested by Change Order, shall purchase the extended warranty for Owner's benefit, in which event the Change Order shall reflect an increase in the Contract Sum equal to the cost of the extended warranty submitted to and accepted by Owner.

§ 3.5.4 All guarantees and warranties of materials and services furnished to Contractor or Subcontractors by any Subcontractor, manufacturer, or supplier shall be assigned to Owner and be deemed to run for the benefit of the

Owner. Contractor hereby assigns to Owner the benefits of all guarantees and warranties of all Subcontractors, manufacturers, and suppliers engaged for the Project, but such assignment shall not relieve Contractor of its warranty obligations to Owner under the Contract Documents or Applicable Law. During the **two (2)** year period set forth in Section 12.2, Contractor shall enforce the Subcontractors', manufacturers' and suppliers' warranties for the benefit of Owner or its assigns. After expiration of such period, the Contractor shall continue to aid Owner in enforcing any continuing warranties assigned to Owner. The Contractor further agrees to perform the Work in such a manner so as to preserve any and all such guarantees and warranties. Contractor's warranties shall be in addition to any warranties, indemnities, claims, rights, actions or remedies that Owner may have in the Contract Documents, or at law, or in equity, for defective Work or breach of the Contract Documents, or otherwise provided under any repose period.

§ 3.6 Taxes

Owner is a hospital district and political subdivision of the State of Texas. Materials and services utilized in the construction of the Project may be exempt from state and local sales and use taxes pursuant to *Texas Tax Code § 151.309(5).* Contractor is responsible for compliance with all tax exemptions applicable to the Project. Owner will process all invoices submitted by Contractor to ensure the invoices comply with the Owner's tax-exempt status.

§ 3.7 Permits, Fees, Notices and Compliance with Laws

§ 3.7.1 Unless otherwise provided in the Contract Documents, the Contractor shall secure and pay for the building permit as well as any other trade permits, fees, licenses, and inspections by Authorities Having Jurisdiction necessary for proper execution and completion of the Work that are customarily secured after execution of the Contract and legally required.

§ 3.7.2 The Contractor shall comply with and give notices required by Applicable Laws, statutes, ordinances, codes, rules and regulations, and lawful orders Authorities Having Jurisdiction, applicable to performance of the Work.

§ 3.7.3 If the Contractor performs Work knowing it to be contrary to Applicable Laws, statutes, ordinances, building codes, rules and regulations, or lawful orders of Authorities Having Jurisdiction, the Contractor shall assume appropriate responsibility for such Work and shall bear the costs attributable to correction.

§ 3.7.4 Concealed or Unknown Conditions

If the Contractor encounters conditions at the Site that are (1) subsurface or otherwise concealed physical conditions that differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature that differ materially from those ordinarily found to exist, the Contractor shall promptly provide notice to the Owner, Project Manager, and the Architect before conditions are disturbed and in no event later than **seven (7)** Days after the first observance of the conditions. The Architect and/or Project Manager will promptly investigate such conditions and, if the Architect and Project Manager determine that they differ materially and cause an increase or decrease in the Contractor's cost of, or time required for, performance of any part of the Work, may recommend an equitable adjustment in the Guaranteed Maximum Price or Contract Time, or both, the actual adjustment of which is subject to Owner approval. If the Owner and Contractor cannot agree on an adjustment in the Guaranteed Maximum Price or Contract Time, the Contractor may make a Claim pursuant to Article 15. If the Architect or Project Manager determine that the conditions at the Site are not materially different from those indicated in the Contract Documents and that no change in the terms of the Contract is justified, the Architect and/or Project Manager shall promptly notify the Owner and Contractor in writing, stating the reasons. Notwithstanding the foregoing, no adjustment in the Guaranteed Maximum Price or Contract Time shall be allowed to the extent that the Contractor knew, or reasonably should have known of those conditions prior to the date of this Agreement.

§ 3.7.5 If, in the course of the Work, the Contractor encounters human remains or recognizes the existence of burial markers, archaeological sites or wetlands not indicated in the Contract Documents, the Contractor shall immediately suspend any operations that would affect them and shall notify the Owner, Project Manager, Architect and any required Authorities Having Jurisdiction. Upon receipt of such notice, the Owner shall promptly take any action necessary to obtain authorization from Authorities Having Jurisdiction required to resume the operations. The Contractor shall continue to suspend such operations until otherwise instructed by the Owner or permitted by applicable Authorities Having Jurisdiction but shall continue with all other operations that do not affect those remains or features to the extent permitted by Applicable Law. The Guaranteed Maximum Price and Contract Time may be equitably adjusted due to delays or increased costs arising from the existence of such remains or features. Notwithstanding the foregoing, no adjustment in the Guaranteed Maximum Price or Contract Time shall be allowed to the extent that (a) the Contractor knew of those conditions prior to the date of this Agreement, or (b) information

was given to the Contractor by Owner or Architect from which those conditions could have been discovered prior to the date of the Contractor's execution of the Agreement.

§ 3.7.6 Commissioning. The Contractor shall assist the Owner in obtaining commissioning of the Work as may be required by Owner's commissioning agent and all Authorities Having Jurisdiction over the Project including, but not limited, to TDHHS, the City of Fort Worth, Authorities Having Jurisdiction responsible for ensuring compliance with the ADA and TAS, and any other applicable Authority Having Jurisdiction, organization, or other public authority.

§ 3.8 Allowances

§ 3.8.1 The Contractor shall include in the Guaranteed Maximum Price all allowances stated in the Contract Documents. Items covered by allowances shall be supplied for such amounts and by such persons or entities as the Owner may direct, but the Contractor shall not be required to employ persons or entities to whom the Contractor has reasonable objection.

§ 3.8.2 Unless otherwise provided in the Contract Documents,

- **.1** allowances shall cover the cost to the Contractor of materials and equipment delivered at the Site, costs for unloading and handling at the Site, labor, installation costs, and all required taxes (except for those from which Owner is exempt), less applicable trade discounts;
- **.2** Contractor's costs for indirect overhead and profit for stated allowance amounts shall be included in the Contractor's Fee but not in the allowances; and
- **.3** whenever costs are more than or less than allowances, the Guaranteed Maximum Price shall be adjusted accordingly by Change Order. No adjustments will be made unless Owner approves such adjustment. The amount of the Change Order shall reflect (1) the difference between actual costs and the allowances under Section 3.8.2.1 and (2) changes in Contractor's Fee under Section 3.8.2.2. Contractor shall keep separate and adequate records of all allowances and shall submit such records to Owner and Project Manager no less than on a monthly basis. Owner shall be responsible for costs incurred in excess of allowance amounts only to the extent approved by Owner in writing.

§ 3.8.3 Materials and equipment under an allowance shall be selected by the Owner with reasonable promptness in sufficient time to avoid delay in the Work.

§ 3.9 Key Personnel

§ 3.9.1 The Contractor's representative(s) designated in Section 15.2 of the Agreement, shall be those responsible for the day-to-day management of the Work. The Contractor shall keep a competent superintendent in attendance at the Project site at all times, fully authorized to act on behalf of the Contractor (the "Superintendent"). The Contractor's Superintendent shall be designated in accordance with Section 3.9.2 below. Other key personnel shall also be designated in writing as soon as practicable after award of the Contract**.** Each person shall be designated with a title and a brief description of the obligations and limitations (if any) of each representative's authority. The Contractor shall not change representatives/assignments without the Owner's written consent, which consent shall not be unreasonably withheld. The Contractor's Superintendent shall represent the Contractor, and written communications given to the Superintendent shall be as binding as if given to the Contractor. Contractor shall employ a competent safety professional and necessary assistants who shall be in attendance at the Site during performance of the Work pursuant to Section 10.1.4 herein. The safety professional shall be designated as required by Section 10.1.4 and shall enforce all applicable construction safety standards, develop a progressive discipline program, monitor employee safety compliance, and document safety violations. Contractor shall not assign or retain on the Project any person or entity to whom Owner reasonably objects. Once designated, the key personnel will not be changed unless such person becomes unable to perform any required duties due to death, injury, transfer, or termination of employment with Contractor. The Contractor's Superintendent, safety professional, and other key personnel are designated by Contractor in **Exhibit D.**

§ 3.9.2 The Contractor, as soon as practicable after award of the Contract, shall furnish in writing to the Owner the name and qualifications of a proposed Superintendent.

§ 3.9.3 The Contractor shall not employ a proposed Superintendent, safety professional, or any other senior project personnel to whom the Owner has made reasonable and timely objection. The Contractor shall not change the Superintendent, safety professional, or any other senior Project personnel listed in **Exhibit D** without the Owner's consent (except in the case of death, disability or termination from employment), which shall not unreasonably be

withheld or delayed. If the Contractor changes any of the personnel, Subcontractors, or suppliers identified in the Contract Documents, the Contractor shall notify the Owner and provide the name and qualifications of the new personnel, Subcontractor or supplier.

§ 3.9.4 If Owner reasonably determines that any employee of Contractor (including but not limited to its Superintendent or other administrative or supervisory personnel) or of its Subcontractors or their Sub-subcontractors is careless or not qualified to perform the Work or responsibilities assigned to him or is otherwise not competently performing the Work or responsibilities assigned to him in accordance with the standards required by the Contract Documents, upon Owner's written request, the Contractor shall promptly remove such employee from the Work and replace such employee or cause such employee to be replaced in accordance with any requirements hereof.

§ 3.10 Contractor's Construction and Submittal Schedules

§ 3.10.1 Exhibit C is a detailed baseline Project Schedule for the Work prepared by Contractor. Within **ten (10)** Days after execution of the Agreement, Contractor shall update the baseline Project Schedule to include various other dates critical to the progress of the Project, including deliverables to Owner, critical milestone dates, mobilization, procurement, installation, testing, inspection, the Required Date of Substantial Completion, the Final Completion Date, any Interim Milestone Dates, delivery of Close-Out Documents, acceptance of all the Work required under this Agreement, and any other details required for tracking the progress of the Work. The Project Schedule shall be computerized Critical Path Method (CPM) with fully editable logic with adequate detail so the schedule is capable of measuring and forecasting the effect of delaying events on completed and uncompleted activities. The Project Schedule and all monthly updates should address Submittal activities as well as actual field construction activities. The Project Schedule shall not exceed time limits current under the Contract Documents, shall be revised at appropriate intervals as required by the conditions of the Work and Project, shall be related to the entire Project, shall provide for expeditious and practicable execution of the Work, and shall include allowances for periods of time required for the Owner's review and for approval of submissions by Authorities Having Jurisdiction. All Project Schedule updates shall address the subject of how the Contractor intends to address any critical path delays previously encountered.

§ 3.10.2 Prior to submission of any Submittals, the Contractor shall also submit a "Submittal Schedule" for the Architect's and the Owner's approval which shall not be unreasonably delayed or withheld. The Submittal Schedule shall (1) be coordinated with the Contractor's Project Schedule, (2) allow the Owner, Architect, and Project Manager reasonable time to review Submittals; (3) be periodically updated to reflect the progress of the Work. If the Contractor fails to submit a Submittal Schedule, or fails to provide Submittals in accordance with the approved Submittal Schedule, the Contractor shall not be entitled to any increase in the Guaranteed Maximum Price or extension of Contract Time based on the time required for review of Submittals.

§ 3.10.3 The Contractor shall perform the Work in accordance with the most recent schedules submitted to and accepted by the Owner and the Architect. Revisions by the Contractor to the Project Schedule shall not amend, change or otherwise affect the Required Date of Substantial Completion, Date of Final Completion, any Interim Milestone Date, or any other significant dates unless approved by appropriate Change Order. Failure of the Work to proceed in the sequence scheduled by Contractor shall not alone serve as the basis for a Claim for additional compensation or Contract Time. In the event there is interference with the Work which is beyond its control, Contractor shall attempt to reschedule the Work in a manner that will hold resulting additional Contract Time and costs to a minimum.

§ 3.10.4 The Project Schedule shall provide for the most expeditious and practicable execution of the Work. The Contractor shall also work closely with the Project Team to confirm that the Project Schedule accurately reflects the status of the Project. The Contractor's Project Schedule shall be updated every month by the Contractor and submitted to the Owner and Project Manager. The Contractor is responsible for expediting the Work, identifying potential conflicts and coordination problems that could affect the Contract Time and proposing measures to avoid such problems.

§ 3.10.4.1 Whenever it becomes apparent from the updated Project Schedule or progress report that any critical date previously established by the Project Schedule is more than **ten (10)** Days behind schedule and may not be met, the Contractor shall, at the Owner's request, take any or all of the following actions with no increase to the Guaranteed Maximum Price or Contract Time (unless the delay is otherwise approved by Owner with an increase in the Guaranteed Maximum Price or Contract Time via Change Order):

(a) Increase construction manpower and perform overtime to substantially eliminate the back-log of work and return the Project to schedule;
(b) Increase the number of working hours per shift, shifts per Day, working Days per week, the amount of construction equipment, or any combination of the foregoing which will substantially eliminate the back-log of work and return the Project to schedule;
(c) Reschedule activities to concurrently accomplish activities, to the maximum degree practicable, in the time required by the Contract Documents;
(d) Take such other action as may be requested or directed by the Owner to return the Project to Schedule.

If the Contractor fails to take any of these actions within **three (3)** Days after receiving notice from the Owner, the Owner may in addition to its other rights and remedies (i) take action to attempt to return the Project to schedule, and (ii) deduct the cost of such actions from the monies due or to become due to the Contractor, unless the delay is an Excusable Delay and the Owner requests the Contractor shall submit a recovery plan to resolve the effects of said delay. Contractor shall not be entitled to compensation from the Owner or any increase in the Guaranteed Maximum Price for the scheduled recovery efforts, except as to causes of delay to the critical path as allowed under Section 8.3 herein, and not caused by the Contractor or any Subcontractor or supplier. No approval or consent by the Owner of any plan for re-sequencing or acceleration of the Work submitted by Contractor pursuant to this Section shall constitute a waiver by Owner of any damages or losses which Owner may suffer and for which Contractor is liable hereunder by reason of such re-sequencing or the failure of Contractor to meet the Required Date of Substantial Completion, Interim Milestone Dates, or other requirements of the Agreement with regard to the Contract Time. The Owner may exercise the rights furnished pursuant to this Section 3.10.4.1 as frequently as the Owner deems necessary to facilitate the Contractor's performance of the Work's compliance with the Required Date of Substantial Completion, Final Completion Date, Interim Milestone Dates, and other critical dates set forth in the Contract Documents or accepted Project Schedule.

§ 3.11 Documents and Samples at the Site

§ 3.11.1 The Contractor shall maintain at the Site for the Owner one hard copy of the Drawings, Specifications, Addenda, Change Orders and other Modifications, in good order and marked currently to record changes (including changes in the field and selections made during construction). At the end of construction, the As-Built Documents shall be provided to Architect with a request to complete Record Drawings. The Contractor shall further maintain at the Site and available for Owner's inspection one record hard copy of approved shop drawings, product data, samples and similar required Submittals, along with the Submittal Log. These shall be available to the Owner, Architect, and Project Manager, and shall be delivered to the Architect for submittal to the Owner upon completion of the Work as a record of the Work as constructed, at a time and place designated by Owner. These documents shall be available to Architect, Owner, and Project Manager during the progress of the Work. As-Built Documents shall contain, but not be limited to: (i) the actual location of the underground utilities and appurtenances as referenced to permanent surface improvements; (ii) the location of internal utilities and appurtenances concealed in building structures; and (iii) changes during the construction process. The As-Built Documents are to be kept accurately and no Work shall be permanently concealed until the required information has been recorded. As part of the Project Close-out Documents, and prior to release by Owner of Final Payment, Contractor shall submit two (2) sets of accurate and complete As-Built Documents and Record Drawings, in electronic form, to Owner and Project Manager in accordance with *Tex. Gov't Code § 2269.310* with Contractor's representation that the documents show complete "as-built" conditions of the Work.

§ 3.11.2 Contractor shall at all times maintain job records, including, but not limited to, invoices, payment records, payroll records, daily reports, logs, diaries, and job meeting minutes, applicable to the Project. Contractor shall make such reports and records available to inspection by the Owner, Project Manager, Architect, or their representative agents, within **five (5)** Days of request by Owner, Project Manager, Architect, or their agents.

§ 3.12 Shop Drawings, Product Data and Samples

§ 3.12.1 Shop Drawings are drawings, diagrams, schedules, and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier, or distributor to illustrate some portion of the Work.

§ 3.12.2 Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams, and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

§ 3.12.3 Samples are physical examples that illustrate materials, equipment, or workmanship, and establish standards by which the Work will be judged.

§ 3.12.4 Prior to the submission of any Submittals, the Contractor shall prepare and submit to Owner, Project Manager, and Architect a Submittal log organized by specification section, listing all items to be furnished for review and approval by Architect and Owner (the "Submittal Log"). The list shall include Shop Drawings, manufacturer's literature, certificates of compliance, materials Samples, materials, colors, guarantees, and all other items identified throughout the Specifications. Informational Submittals upon which the Architect is not expected to take responsive action may be so identified in the Contract Documents. Submittals that are not required by the Contract Documents may be returned by the Architect without action.

§ 3.12.4.1 Submittal Log. Contractor shall indicate the type of item, contract requirements reference, and Contractor's scheduled dates for submitting the item along with the requested dates for approval answers from Architect and Owner in the Submittal Log. The Submittal Log shall indicate the projected dates for procurement of all included items and shall be updated at least monthly with actual approval and procurement dates and included with each monthly Application for Payment. Contractor's Submittal Log must be reasonable in terms of the review time for complex Submittals and shall be consistent with the Project Schedule. The Submittal Log shall be used to confirm status and disposition of particular items submitted, including approval or other action taken on the submittal. Contractor will not schedule Work requiring a submittal to begin prior to scheduling review and approval of the related Submittal.

§ 3.12.5 The Contractor shall review for compliance with the Contract Documents, approve, and submit to the Architect, Owner, and Project Manager, Shop Drawings, Product Data, Samples, and similar Submittals required by the Contract Documents, or subsequently required by a Change Order, in accordance with the Submittal Schedule and Submittal Log, or if not contained therein, with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Owner or of Separate Contractors taking into account the time the Architect and Owner need to review the Submittals. Contractor shall allow a minimum of **fourteen (14)** Days duration after receipt by Owner and Architect for review and approval of any Submittal and shall show the duration of each Submittal in the Submittal Log. If resubmittal is required, Contractor shall allow a minimum of an additional **ten (10)** Days for review. Owner may establish routine review procedures and schedules for Submittals at an initial construction conference and/or elsewhere in the Contract Documents. Submittals which are not marked as reviewed for compliance with the Contract Documents and approved by the Contractor may be returned by the Architect without action.

§ 3.12.6 By submitting Shop Drawings, Product Data, Samples, and similar Submittals, the Contractor represents to the Owner that the Contractor has (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so if Work is not yet in place, and (3) checked and coordinated the information contained within such Submittals with the requirements of the Work and of the Contract Documents.

§ 3.12.7 The Contractor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples, or similar Submittals, until the respective Submittal has been approved by the Owner and Architect.

§ 3.12.8 Review of Submittals. Architect's, Project Manager's, or Owner's review is only for conformance with the design concept and the information provided in the Contract Documents. Responses to Submittals will be in writing. The Work shall be in accordance with approved Submittals except that the Contractor shall not be relieved its responsibility to perform the Work consistent with the requirements of the Contract Documents by the Architect's, Project Manager's, or Owner's approval of Shop Drawings, Product Data, Samples or similar Submittals, unless the Contractor has specifically informed the Architect, Owner, and Project Manager in writing of such deviation at the time of Submittal and a Change Order or Owner Change Directive has been issued authorizing the deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples, or similar Submittals, by the Architect's or Owner's approval thereof.

§ 3.12.9 Contractor shall make any corrections required to a Submittal and resubmit the required number of corrected copies promptly so as to avoid delay, until Submittal approval. The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples or similar Submittals, to revisions other than those requested by the Owner or Architect on previous Submittals. In the absence of such written notice, the Architect's or

Owner's approval of a resubmission shall not apply to such revisions.

§ 3.12.10 The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents for a portion of the Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences and procedures. The Contractor shall not be required to provide professional services in violation of Applicable Law.

§ 3.12.10.1 If professional design services or certifications by a design professional related to systems, materials or equipment are specifically required of the Contractor by the Contract Documents, the Owner and the Architect will specify performance and design criteria that such services must satisfy. The Contractor shall cause such services or certifications to be provided by a properly licensed or registered design professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings and other Submittals prepared by such professional. Shop Drawings and other Submittals related to the Work designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to the Architect, Project Manager, and Owner. The Owner and the Architect shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications and approvals performed or provided by such design professionals, provided the Owner and Architect have specified to the Contractor all performance and design criteria that such services must satisfy. Pursuant to this Section 3.12.10, the Owner and Architect will review, approve or take other appropriate action on Submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents.

After equipment is no longer required for the Work, it shall be promptly removed from the Site. Protection of the Work and of construction materials and equipment stored at the Site from weather, theft, damage and all other adversity is solely the responsibility of the Contractor. The Contractor shall ensure that the Work, at all times, is performed in a manner that affords reasonable access, both vehicular and pedestrian, to the Site and all adjacent areas. The Work shall be performed, to the fullest extent reasonably possible, in such a manner that public areas adjacent to the Site shall be free from all debris, building materials, and equipment likely to cause hazardous conditions.

§ 3.13.3 The Contractor, Subcontractors, and any entity for whom the Contractor is responsible shall, other than as required by Applicable Law, not erect any sign on the Site without the prior written consent of the Owner, which may be withheld in the sole discretion of the Owner.

§ 3.13.4 Without limitation of any other provision of the Contract Documents, the Contractor shall use best efforts to minimize any interference with the occupancy or beneficial use of (i) any areas and buildings adjacent to the Site and (ii) that portion of the Work of which Owner has partial occupancy, as more specifically described in Section 9.9. The Contractor shall use its best efforts to not interfere with the use of and enjoyment by neighboring landowners of their property and shall keep noise and dust to the lowest levels reasonably possible to accomplish the Work. Without prior approval of the Owner, the Contractor shall not permit any workers to use any existing facilities at the Site, including, without limitation, lavatories, toilets, entrances, and parking areas other than those designated by the Owner.

§ 3.14 Cutting and Patching

§ 3.14.1 The Contractor shall be responsible for cutting, fitting or patching required to complete the Work or to make its parts fit together properly. The Contractor shall use its best efforts to prevent dust. The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under the Contract. All waste and rubbish containers shall be covered at all times. At the end of each week, the Contractor shall remove waste materials, and rubbish and shall properly store the Contractor's tools, construction equipment, machinery and surplus materials that could cause a hazard from and about the Project. Contractor shall restore to satisfactory condition all new and existing walks, roads, curbs and other interior or exterior improvements that have been damaged as a result of operations under the Agreement. Upon completion of the Work, the Contractor shall remove any remaining waste materials, rubbish, tools, construction equipment, machinery and surplus materials and shall leave the completed Project ready for use and occupancy and with all Work in new condition and working order.

§ 3.15.2 If the Contractor fails to clean up as provided in the Contract Documents, the Owner may do so with its own forces or contracted services and the Owner shall be entitled to reimbursement from the Contractor or to deduct such costs from the Contractor's next Application for Payment.

§ 3.17 Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold the Owner, Project Manager, and Architect harmless from loss on account thereof as set forth in Section 3.18.3 below, but shall not be responsible for such indemnity, defense or loss when a particular design, process or product of a particular manufacturer or manufacturers is required by the Owner, or where the copyright violations are contained in Drawings, Specifications or other documents prepared by the Owner or Architect. However, if the Contractor knows that the required design, process or product is an infringement of a copyright or a patent, the Contractor shall be responsible for such indemnity, defense or loss unless such information is promptly furnished to the Owner and the Architect.

ARTICLE 4 ARCHITECT

§ 4.1 General

§ 4.1.1 The Owner shall retain an architect lawfully licensed to practice architecture or an entity lawfully practicing architecture in the jurisdiction where the Project is located. That person or entity is identified as the Architect in the Agreement and is referred to throughout the Contract Documents as if singular in number.

§ 4.1.2 Duties, responsibilities and limitations of authority of the Architect as set forth in the Contract Documents shall not be restricted, modified or extended without written consent of the Owner, and Architect, with notice to the Contractor.

§ 4.1.3 Owner may remove the Architect at any time with or without cause. If the Owner employs a new Architect, its status under the Contract Documents shall be that of the former Architect. In the case of such termination, the Owner may itself perform some or all of the responsibilities of Architect hereunder.

§ 4.2 Administration of the Contract

§ 4.2.1 The Architect will provide administration of the Contract as described in the Contract Documents or as requested by Owner. The Architect will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents.

§ 4.2.2 Upon the Owner's request, the Architect, and such other consultants retained by the Owner and Architect, will visit the Site at intervals appropriate to the stage of construction with the Project Manager, or as otherwise agreed with the Owner, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general if the Work or portion thereof observed is being performed in a manner indicating that the Work or portions observed, when fully completed, will be in accordance with the Contract Documents. However, the Owner does not currently intend for the Architect, Project Manager, or such other consultants of the Owner or Architect to make exhaustive or continuous on-Site inspections to check the quality or quantity of the Work. Neither the Architect, Project Manager, nor such other consultants of the Owner or Architect will have control over, charge of, or responsibility for, the construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities as indicated in this Agreement.

§ 4.2.3 On the basis of the Site visits, the Architect will keep the Owner and Project Manager reasonably informed about the progress and quality of the portion of the Work completed, and report to the Owner (1) known deviations from the Contract Documents and from the most recent Project Schedule submitted by the Contractor, and (2) defects and deficiencies observed in the Work. Neither the Owner, Architect, nor the Project Manager will be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect, Owner, and Project Manager will not have control over or charge of and will not be responsible for acts or omissions of the Contractor, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.

§ 4.2.4 Communications Facilitating Contract Administration

Except as otherwise provided in the Contract Documents, the Architect, Project Manager, and such other persons designated by the Owner shall be copied on all correspondence between the Owner and Contractor. The Owner and Contractor may communicate directly with each other or indirectly through the Architect or Project Manager about

matters arising out of or relating to the Contract. Communications by and with the Architect's consultants shall be through the Architect with the Owner copied on all written communications. Unless the Owner agrees otherwise, communications between Contractor and Owner's Consultants shall be through Owner and/or Project Manager. Except as otherwise provided in the Contract Documents, communications by and with Subcontractors and material suppliers shall be through the Contractor. Communications by and with Separate Contractors shall be through the Owner, except as may be required to facilitate coordination between Contractor and such Separate Contractors.

§ 4.2.5 Based on the Architect's and Project Manager's evaluations of the progress and condition of the Work, the Contractor's Applications for Payment, and all items required to be submitted by the Contractor in Sections 9.3 and 9.10 herein and Section 12.1 of the Agreement, the Architect will review and, after consultation with the Project Manager, the Architect and Project Manager will certify the amounts due the Contractor and the Project Manager will issue Certificates for Payment in such amounts.

§ 4.2.6 The Architect, Owner, and Project Manager have authority to reject Work that does not conform to the Contract Documents. Whenever the Owner or Architect considers it necessary or advisable, the Architect and Owner will have authority to require inspection or testing of the Work in accordance with Sections 13.4.1, 13.4.2 and 13.4.3, whether or not such Work is fabricated, installed or completed. However, neither this authority of the Architect or Owner nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect or Owner to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 4.2.7 The Architect, in cooperation with the Owner and Project Manager, will review and approve, or take other appropriate action upon, the Contractor's Submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect's action will be taken in accordance with the Submittal Log approved by the Architect and Owner or, in the absence of an approved Submittal Log, with reasonable promptness as to cause no delay in the Work or in the activities of the Owner, Contractor or Separate Contractors while allowing sufficient time in the Architect's professional judgment to permit adequate review. Review of such Submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or operating performance of equipment or systems, all of which remain the responsibility of the Contractor as required by the Contract Documents. The Architect's and Owner's review of the Contractor's Submittals shall not relieve the Contractor of the obligations under Sections 3.3, 3.5 and 3.12. The Architect's and Owner's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Architect, of any construction means, methods, techniques, sequences or procedures. The Architect's or Owner's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 4.2.8 The Project Manager will prepare Change Orders and Owner Change Directives. The Architect and/or Project Manager will investigate and make initial determinations and recommendations regarding concealed and unknown conditions as provided in Section 3.7.4.

§ 4.2.9 Promptly after the Contractor has submitted to the Owner, Project Manager, and Architect a punch list of incomplete items (the "Punchlist") and has informed them that, in the Contractor's opinion, the Work or designated portion thereof is Substantially Complete as set forth in the Contract Documents, the Architect and Project Manager shall conduct an on-Site observation with the Owner to assist the Owner in determining the date of Substantial Completion and in supplementing the Contractor's Punchlist of items remaining to be completed. Thereafter, the Architect, in collaboration with the Project Manager and Owner, will conduct inspections to determine the date or dates of Substantial Completion and the date of Final Completion; issue Certificates of Substantial Completion pursuant to Section 9.8; receive and forward to the Owner, for the Owner's review and records, written warranties and Close-Out documents required by the Contract and assembled by the Contractor pursuant to Section 9.10; and assist the Project Manager in issuance of a final Certificate for Payment pursuant to Section 9.10.

§ 4.2.10 If the Owner and Architect agree, the Architect will provide one or more Project representatives to assist in carrying out the Architect's responsibilities at the Site. The Owner shall notify the Contractor of any change in the duties, responsibilities and limitations of authority of the Project representatives.

§ 4.2.11 In addition to responding to RFIs per Section 4.2.14, the Architect will interpret and make recommendations on matters concerning performance under, and requirements of, the Contract Documents on request of the Owner.

§ 4.2.12 Interpretations and recommendations of the Architect will be consistent with the intent of, and reasonably inferable from, the Contract Documents and will be in writing or in the form of drawings.

§ 4.2.13 On matters relating to aesthetic effect, Architect will review Submittals from Contractor to determine if they are consistent with the intent expressed in the Contract Documents. Matters relating to aesthetic effect will be referred to Owner for written approval prior to Architect providing final decisions to Contractor.

§ 4.2.14 The Architect will review and respond to Requests for Information about the Contract Documents. The Contractor's RFIs shall be made to the Architect in writing with a copy to the Owner on an RFI form furnished by or acceptable to the Architect and Owner. If appropriate, the Architect will prepare and issue supplemental Drawings and Specifications in response to the Requests for Information. The Contractor shall copy and distribute the response to all persons or entities affected by response. The Architect's response to such RFIs will be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 4.2.15 Subject to prior written notice and a reasonable opportunity to cure, if additional services of the Architect are required because of default or breach by the Contractor that causes additional services of the Architect to be necessary, the cost thereof shall be borne by the Contractor, and the Owner shall be entitled to reduce amounts otherwise due to the Contractor by the costs of such additional services and/or demand that the Contractor reimburse the Owner for such costs.

ARTICLE 5 SUBCONTRACTORS

§ 5.1 Definitions

§ 5.1.1 A Subcontractor is a person or entity defined in the Definitions section of this AIA A-201 General Conditions of the Contract, as modified for this Project.

§ 5.1.2 *[Intentionally deleted]*.

§ 5.2 Award of Subcontracts and Other Contracts for Portions of the Work

§ 5.2.1 Contractor shall publicly advertise and solicit competitive lump sum bids/proposals from Subcontractors for the performance of all major elements of the Work other than the minor Work that may be included in the Contractor's General Conditions Costs. Criteria for determining the bid/proposal that provides the best value to the Owner shall be established by the Contractor and Owner and included in the request for bids/proposals. The Contractor shall notify the Owner in advance in writing of the date it will receive the bids/proposals.

§ 5.2.1.1 The Contractor shall schedule and conduct pre-bid conferences with interested bidders/proposers, Subcontractors, including material suppliers and equipment suppliers, and record minutes of the conferences. Contractor shall also respond in writing, to all parties attending, to questions raised in these conferences.

§ 5.2.1.2 All Subcontractor bids/proposals shall be opened by Contractor in the presence of Owner and Project Manager. The Contractor, Owner, and Project Manager shall review all Subcontractor bids/proposals in a manner that does not disclose the contents of any bid/proposal to persons not employed by the Owner, Contractor, or Project Manager during the selection process. All bids/proposals shall be publicly available after award of the contract or within **seven (7)** Days after the date of final selection, whichever is later.

§ 5.2.1.3 If Contractor reviews, evaluates, and recommends to Owner a bid/proposal from a Subcontractor, but Owner requires another bid/proposal to be accepted, Owner shall compensate Contractor by a change in the Contract Time or Contract Sum for any additional cost and risk that Contractor incurs because of Owner's requirement that the other bid/proposal be accepted.

§ 5.2.1.4 Contractor may seek to self-perform portions of the Work identified for self-performance in the bid/proposal strategy ("Self-Performed Work"). Contractor must submit a bid/proposal for the Self-Performed Work in the same manner as all other Subcontractors, but must submit such bid/proposal directly to the Owner at least **twenty-four (24)** hours prior to receiving similar bids from other parties. After reviewing all the bids, the Owner will determine whether the Contractor's bid/proposal provides the best value for Owner, which determination is final. If selected as the best value, the Contractor must perform the approved Self-Performed Work in accordance with the same terms and conditions as its other Subcontractors. For payment purposes, the Contractor shall account for Self-Performed Work in the same manner as it does all other Subcontractor costs. In the event an adjustment is required to the cost of any awarded Self-Performed Work, the awarded amount shall be treated as a lump sum

§ 5.2.4 The Contractor shall not substitute a Subcontractor, person or entity previously selected if the Owner makes reasonable objection to such substitution.

§ 5.3 Subcontractual Relations

§ 5.3.1 By appropriate written agreement, in form and substance acceptable to Owner, Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound by terms of the Contract Documents, and to assume all the obligations and responsibilities, required to carry out the Work in accordance with the Contract Documents, including, but not limited to, the indemnity obligations and responsibility for safety of the Work. The Contractor shall make available to each proposed Subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound. Subcontractors will similarly make copies of applicable portions of such documents available to their respective proposed Sub-subcontractors. Contractor shall require all Subcontractors to (i) carry the insurance in the type and amount required by the Agreement and **Exhibit H**, (ii) indemnify the Owner to the same extent as required by the Contractor under the Contract Documents, and (iii) make the same warranties for the applicable portion of the Work to the Owner as required by the Contractor under the Contract Documents. The Contractor shall promptly inform the Owner in writing of any inability to comply with these requirements.

§ 5.3.2 Contractor shall assign to Owner, from time to time as Owner may request, all assignable guaranties, warranties, and indemnities extended by any Subcontractor, materialman, mechanic or vendor with respect to any work, materials, equipment, or services performed or furnished by the issuing party and forming a part of the Work. Contractor shall use its best efforts to obtain assignable guaranties, warranties and indemnities with respect to the Work. Contractor shall, if requested by Owner, enforce any non-assignable guaranty, warranty or indemnity in its name but on behalf of Owner and otherwise assist Owner in realizing the full benefits thereof.

§ 5.4 Contingent Assignment of Subcontracts

§ 5.4.1 Each subcontract agreement for a portion of the Work is assigned by the Contractor to the Owner, provided that

.1 assignment is effective only after termination of the Contract by the Owner pursuant to Sections 14.2 or 14.4, and only for those subcontract agreements that the Owner accepts by notifying the Subcontractor and Contractor in writing; and

.2 assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

When the Owner accepts the assignment of a subcontract agreement, the Owner assumes the Contractor's rights and obligations under the subcontract. Owner shall only be responsible for those obligations of Contractor that (i) accrued prior to Owner's exercise of any rights under the conditional assignment and for which Owner has not made payment to Contractor and (ii) accrue subsequent to Owner's exercise of any rights under the conditional assignment. Each Subcontract shall so limit Owner's liability upon exercise of its rights under the conditional assignment. Nothing contained herein shall waive Contractor's obligations that arise out of Work performed under any agreement prior to Owner's acceptance of the assignment. Upon such assignment to the Owner under this Section 5.4.1, the Owner may further assign the agreement to a successor Contractor or other entity.

§ 5.4.2 Upon such assignment, if the Work has been suspended for more than **ninety (90)** Days, the compensation of Subcontractor whose agreement has been accepted for assignment by the Owner may be equitably adjusted for increases in cost resulting from the suspension.

§ 5.4.4 Notwithstanding the foregoing, in the event of a termination for convenience under Section 14.4 below, Contractor's rights under each subcontract agreement with regard to the respective Subcontractor's obligation to correct defective or non-conforming Work or with regard to the respective Subcontractor's warranty obligations for portions of the Work performed by the Subcontractor are assigned by the Contractor to the Owner in the event of such termination on a non-exclusive basis such that Owner shall also have the right to enforce such obligations.

ARTICLE 6 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

§ 6.1 Owner's Right to Perform Construction and to Award Separate Contracts

§ 6.1.1 The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and with Separate Contractors retained to award separate contracts in connection with other portions of the Project or other construction or operations on the Site under conditions of the Contract identical or substantially similar to these, including those portions related to insurance and waiver of subrogation. If the Contractor claims that delay or additional cost is involved because of such action by the Owner, the Contractor shall make such Claim as provided in Article 15.

§ 6.1.2 *[Intentionally deleted].*

§ 6.1.3 The Owner shall provide for coordination of the activities of the Owner's own forces and of each Separate Contractor with the Work of the Contractor, who shall cooperate with them. The Contractor shall participate with all Separate Contractors and the Owner in reviewing their construction schedules. The Contractor shall make any revisions to the Construction Schedule deemed necessary after a joint review and mutual agreement, and, if the result is an extension of the Contract Time, by a signed Change Order setting forth the agreed adjustment to the Contract Time. The construction schedules shall then constitute the schedules to be used by the Contractor, Separate Contractors, and the Owner until subsequently revised.

§ 6.1.4 *[Intentionally deleted].*

§ 6.2 Mutual Responsibility

§ 6.2.1 The Contractor shall afford the Owner and Separate Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's construction and operations with theirs as required by the Contract Documents.

§ 6.2.2 If part of the Contractor's Work depends upon construction or operations by the Owner or a Separate Contractor, the Contractor shall, prior to proceeding with that portion of the Work, promptly prepare a written report to the Owner, identifying apparent discrepancies or defects in the construction or operations by Owner or Separate Contractor that would render it unsuitable for proper execution and results of Contractor's Work. Failure of the Contractor to report shall constitute an acknowledgment that the Owner's or Separate Contractor's completed or partially completed construction is fit and proper to receive the Contractor's Work, except as to defects not then reasonably discoverable. If the Contractor fails to make such report, the Contractor shall be liable for any damages, costs or liability resulting therefrom, including, without limitation, any fines, consulting fees, and costs of correction of the Work.

§ 6.2.3 The Contractor shall reimburse the Owner for costs the Owner incurs that are payable to a Separate Contractor because of the Contractor's delays, improperly timed activities, defective construction, or failure to protect the Work. The Owner shall be responsible to the Contractor for costs the Contractor incurs because of a Separate Contractor's delays, improperly timed activities, damage to the Work, or defective construction so long as the Contractor complies with Section 6.2.2.

§ 6.2.4 The Contractor shall promptly remedy damage the Contractor wrongfully causes to completed or partially completed construction or to property of the Owner or Separate Contractor as provided in Section 10.2.5. Should the Contractor cause damage to the work or property of any Separate Contractor, the Contractor shall, upon due notice, promptly attempt to settle with such other Separate Contractor by agreement, or otherwise to resolve the dispute.

§ 6.2.5 The Owner and each Separate Contractor shall have the same responsibilities for cutting and patching as are described for the Contractor in Section 3.14.

§ 6.3 Owner's Right to Clean Up

If a dispute arises among the Contractor, Separate Contractors, and the Owner as to the responsibility under their respective contracts for maintaining the premises and keeping the surrounding area free from waste materials and rubbish, the Owner may clean up and equitably allocate the cost among those responsible.

ARTICLE 7 CHANGES IN THE WORK

§ 7.1 General

§ 7.1.1 Changes in the Work may be accomplished after execution of the Contract, and without invalidating the Contract, only by Change Order or Owner Change Directive, subject to the limitations stated in this Article 7 and elsewhere in the Contract Documents.

§ 7.1.2 A Change Order shall be based upon agreement between the Owner and Contractor.; The Owner may issue an Owner Change Directive without agreement by the Contractor.

§ 7.1.3 Changes in the Work shall be performed under applicable provisions of the Contract Documents, and the Contractor shall proceed promptly, unless otherwise provided in the Change Order or Owner Change Directive. From time to time, Owner may authorize changes in the Work, issue additional instructions, require additional Work or direct the omission of Work previously ordered; provided, however, Contractor shall not, under any circumstances, proceed with any change without prior written authorization from Owner in accordance with this Article 7 if such change would (1) increase or decrease the Guaranteed Maximum Price or; (2) extend the Contract Time; or (3) otherwise affect the Work.

§ 7.2 Change Orders

§ 7.2.1 A Change Order is a written instrument signed by the Owner and the Contractor stating their agreement upon all of the following for the items covered in each Change Order as well as the cumulative effect and impact of all previous Change Order(s):

.1 The change in the Work;
.2 The amount of the adjustment, if any, in the Guaranteed Maximum Price; and
.3 The extent of the adjustment, if any, in the Contract Time.

§ 7.2.2 Unless otherwise provided in the Change Order, agreement on any Change Order shall constitute a final settlement of all matters in whole or in part arising from or relating to the change in the Work which is the subject of the Change Order, including but not limited to, all direct and indirect costs associated with such change and any and all adjustments to Guaranteed Maximum Price, the Contract Time and the Project Schedule. In the event a Change Order increases the Guaranteed Maximum Price, Contractor shall include the Work covered by such Change Orders in Applications for Payment as if such Work were originally part of the Contract Documents. Only changes in the Work through properly authorized and executed Change Orders and Owner Change Directives may be included in Contractor's Application for Payment.

§ 7.2.3 The Contractor shall not accept any request for a Change Order from any person other than the Owner and may not perform any Work asserted to constitute a change in the Work until the Owner has issued an Owner Change Directive or executed the Change Order, unless the Owner authorizes in writing that the Contractor to proceed with a change prior to the Owner's final execution of a Change Order.

§ 7.2.4 Change Order Requests ("CORs"). In the event (1) the Contractor determines it is necessary to propose a change in the Work or (2) the Owner notifies Contractor of a desired change in the Work, the Contractor shall promptly (but in no event later than **ten (10)** Days after receipt of the request) deliver to the Owner, Project Manager, and Architect three (3) completed copies of its Change Order Request ("COR") setting forth in detail, with a suitable breakdown by trades and work classifications, the Contractor's estimate of the changes in the Guaranteed Maximum Price (together with appropriate data acceptable to the Owner supporting such estimate, including but not limited to bids, cost estimates, and applicable unit prices) and any proposed adjustment to the Contract Time resulting from the change. CORs shall be in such form or forms as directed by the Owner, Project Manager, or the Architect and comply with the following requirements:

.1 Each COR shall be numbered consecutively and shall include all material costs, labor costs, fees, and other reimbursable Cost of the Work, including all Subcontractors costs, and any applicable Contractor's Fee or profit. The COR shall specify all costs related to the proposed change in the Work, including any disruption or impact on performance.
.2 The Subcontractor's itemized accounting shall be included with the COR.

.3 If the COR is returned to the Contractor for additional information or if the scope of the proposed change in the Work is modified by additions, deletions or other revisions, the Contractor shall revise the COR accordingly and resubmit the revised COR to the Owner.

.4 A revised COR shall bear the original COR number suffixed by the letter "R" to designate a revision in the original COR. If additional revisions to a revised COR are necessary, each subsequent revision shall be identified by an appropriate numeral suffix immediately following the "R" suffix.

.5 The Contractor shall request extensions of Contract Time, if any, due to changes in the Work only at the time of submitting the COR. If no time is included in the COR, it shall conclusively be presumed that the Contract Time shall not be affected by the Work which is the subject of the COR.

.6 The Contractor shall maintain such Change Order log (with CORs) in such form as directed by Owner.

§ 7.2.5 Processing of CORs/Change Orders.

§ 7.2.5.1 The Owner, Project Manager, and the Architect shall review properly prepared, timely CORs submitted by the Contractor for changes in the Work, including adjustments to the Guaranteed Maximum Price or Contract Time. Upon written approval of a COR by the Owner, unless otherwise specified by Owner, the Contractor shall prepare a Change Order reflecting the agreed-upon changes as set forth in the Contractor's COR (or such other changes agreed upon by the Owner and the Contractor). The Change Order may include several approved CORs in a Change Order so long as the Contractor clearly identifies each approved COR by number, description and amount approved and attaches the approved COR to the Change Order.

§ 7.2.5.2 If the Contractor's COR is not agreed to by the Owner or if the Contractor fails to submit a COR to Owner within **ten (10)** Days of an Owner request for a COR, the Owner may nevertheless issue an Owner Change Directive directing the Contractor to perform the requested change in the Work. If so issued, the Contractor shall proceed with the Work authorized by same and the increase or decrease, as applicable, in the Guaranteed Maximum Price as a result of such additive or deductive changes in the Work shall be calculated as set forth in Section 7.3 and the adjustment of the Contract Time shall be as proposed in the Owner Change Directive. If the Contractor disagrees with the adjustments stated in the Owner Change Directive, the Contractor may submit a Claim as set forth in Article 15.

§ 7.2.6 Except as permitted in the Agreement or herein with regard to amounts to which Owner is entitled to payment or offset arising from Contractor's breach or default hereunder, a change in the Guaranteed Maximum Price or the Contract Time shall be accomplished **only** by an Owner Change Directive or Change Order without prejudice, however, to Contractor's right to assert its entitlement to a change in the Guaranteed Maximum Price or Contract Time in accordance with Article 15. No course of conduct or dealings between the parties, nor verbal instructions, express or implied acceptance of alterations or additions to the Work, nor refinement or further detailing of Drawings and Specifications, shall be the basis of any Claim to any increase in any amounts due under the Contract Documents or a change in any time period provided for in the Contract Documents and Contractor hereby releases and waives all Claims for extras, changes or increases therein, unless such extras, changes and increases are specifically authorized by a written Change Order or Owner Change Directive, signed by Owner, in accordance with this Article 7.

§ 7.3 Owner Change Directives

§ 7.3.1 An Owner Change Directive is a written order signed by the Owner, directing a change in the Work prior to agreement on adjustment, if any, in the Guaranteed Maximum Price or Contract Time, or both. The Owner may, by Owner Change Directive, without invalidating the Contract, order changes in the Work within the general scope of the Contract consisting of additions, deletions or other revisions, the Guaranteed Maximum Price and Contract Time being adjusted accordingly. The Owner at any time may also by an Owner Change Directive, without invalidating the Contract, order the Contractor to perform work in the event of a dispute with the Contractor as to whether such work is part of the Work under the Contract Documents and the Contractor may submit a claim in accordance with Article 15.

§ 7.3.2 An Owner Change Directive shall be used in the absence of total agreement on the terms of a Change Order.

§ 7.3.3 If the Owner Change Directive provides for an adjustment to the Guaranteed Maximum Price, the adjustment shall be based on one of the following methods:

.1 Mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

.2 Unit prices stated in the Contract Documents or subsequently agreed upon;
.3 Reimbursable Cost of the Work plus Contractor's Fee;
.4 Actual cost of the Change in the Work to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or
.5 As provided in Section 7.3.7.

§ 7.3.4 If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are materially changed in a proposed Change Order or Owner Change Directive so that application of such unit prices to quantities of Work proposed will cause substantial inequity to the Owner or Contractor, the applicable unit prices shall be equitably adjusted.

§ 7.3.5 Upon receipt of an Owner Change Directive, the Contractor shall promptly proceed with the change in the Work involved and advise the Owner, Project Manager, and Architect of the Contractor's agreement or disagreement with the method, if any, provided in the Owner Change Directive for determining the proposed adjustment in the Guaranteed Maximum Price or Contract Time.

§ 7.3.6 An Owner Change Directive signed by the Contractor indicates the Contractor's agreement therewith, including adjustment in Guaranteed Maximum Price and Contract Time or the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.

§ 7.3.7 If the Contractor does not respond within **ten (10)** Days of submittal of the Owner Change Directive or indicates a disagreement with the method for adjustment in the Guaranteed Maximum Price within that same **ten (10)** Day period, the Architect in collaboration with the Project Manager shall determine the method and the adjustment on the basis of reasonable expenditures and savings of those performing the Work attributable to the change and including, in the case of an increase, an amount for Subcontractor overhead and profit, if any, as set forth in the Agreement, or if no such amount is set forth in the Agreement, a reasonable amount. In such case, and also under Section 7.3.3.3, the Contractor shall keep and present, in such form as the Owner, Project Manager and/or Architect may prescribe, an itemized accounting together with appropriate supporting data. Unless otherwise provided in the Contract Documents, costs for the purposes of this Section 7.3.7 shall be limited to the following:

.1 Costs of labor, and labor burden as set forth in **Exhibit B** and **Attachment B-1**;
.2 Costs of materials, supplies and equipment, including cost of transportation, whether incorporated or consumed;
.3 Rental costs of machinery and equipment, exclusive of hand tools, whether rented from the Contractor or others;
.4 Costs of permit fees, and sales, use or similar taxes related to the Work; and
.5 Additional costs of supervision and field office personnel directly attributable to the Change unless otherwise included in another Cost of the Work.

The costs referred to in this Section 7.3.7 shall be reasonable costs. Contractor shall not be entitled to an increase of the Contractor's Fee or additional mark-up as a result of any Change Order, except as specifically permitted in Section 5.1.2 of the Agreement.

§ 7.3.8 Except as otherwise provided in the Agreement, the amount of credit to be allowed by the Contractor to the Owner for a deletion or change that results in a net decrease in the Guaranteed Maximum Price shall be calculated as provided in Section 5.1.2 of the Agreement. When both additions and credits covering related Work or substitutions are involved in a change, the allowance for profit shall be figured on the basis of net increase or decrease, if any, with respect to that change, to the extent such change is authorized by the Agreement.

§ 7.3.9 Pending final determination of the total cost of an Owner Change Directive, amounts not in dispute for such changes in the Work shall be included in Applications for Payment accompanied by a Change Order indicating the parties' agreement with part or all of such costs. For any portion of such cost that remains in dispute, the Architect, in collaboration with the Project Manager, will make an interim determination for purposes of monthly certification for payment for those costs. That determination of cost shall adjust the Guaranteed Maximum Price on the same basis as a Change Order, subject to the right of either party to disagree and assert a Claim in accordance with Article 15. Further, pending final determination of any adjustment to the Contract Time, a Change Order shall be issued indicating the parties' agreement with part or all of the appropriate time adjustment, and for any portion of such time adjustment that remains in dispute, the Architect in collaboration with the Project Manager will make an interim determination, subject to the right of either party to disagree and assert a Claim in accordance with Article 15.

§ 7.3.10 When the Owner and Contractor agree with a determination concerning the adjustments in the Guaranteed Maximum Price and Contract Time, or otherwise reach agreement upon the adjustments, such agreement shall be effective immediately and shall be recorded by preparation and execution of an appropriate Change Order. Change Orders may be issued for all or any part of an Owner Change Directive.

ARTICLE 8 TIME

§ 8.1 Definitions

§ 8.1.1 Contract Time is defined in Article 1.1.

§ 8.1.2 The date of commencement of the Work is the date established in the Agreement.

§ 8.1.3 The date of Substantial Completion is the date certified by the Architect and approved by Owner in accordance with Section 9.8.

§ 8.1.4 The term "Day" as used in the Contract Documents is defined in Article 1.1.

§ 8.2 Progress and Completion

§ 8.2.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

§ 8.2.2 The Contractor shall not knowingly, except by agreement or instruction of the Owner in writing, prematurely commence operations on the Site or elsewhere prior to the effective date of insurance required by Article 11 and **Exhibit H** to be furnished by the Contractor to the Owner. The Contract Time shall not be adjusted as a result of the Contractor's failure to obtain insurance required under this Contract.

§ 8.2.3 The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the Contract Time.

§ 8.2.4 Contractor shall perform the Work in accordance with the Project Schedule and the Required Dates of Substantial Completion and Final Completion and all Interim Milestone Dates contained therein, which shall not exceed the time required under Sections 4.3.1 and 4.3.2 of the Agreement. The term "Float" as used in the Contract Documents shall mean "total float" and shall mean the difference between the time available to accomplish an activity and the estimated time required and is as determined by the most recently updated Project Schedule. All Float contained in the Project Schedule shall be considered a Project resource available to Owner or Contractor, on an as-needed basis, to achieve Project Schedule milestones, Interim Milestone Dates, Substantial Completion, and/or Final Completion. All Float shall be shown in the Project Schedule. Identification of (or failure to identify) Float on the Project Schedule shall be evaluated by the Owner and Project Manager in determining whether to approve the Project Schedule. Once identified, Float shall be monitored, accounted for, and maintained in accordance with critical path methodology in the Project Schedule.

§ 8.3 Delays and Extensions of Time

§ 8.3.1 Weather Delays. If adverse weather conditions are the basis for a Claim for additional time, Contractor shall demonstrate the manner in which the critical path of the Project Schedule is impacted by the alleged delay due to the adverse weather conditions. In addition, each such Claim for additional time related to adverse weather conditions shall be documented by data substantiating that weather conditions had adverse effect on the critical path of the Project Schedule and that conditions experienced fall outside what Construction Manager reasonably anticipated and mutually agreed to by Owner and Construction Manager.

. Regardless of actual weather conditions, any Day in which the Contractor is able to work sixty percent (60%) or more of its scheduled work force shall not be counted as an adverse weather condition for purposes of calculating weather related time extensions. In evaluation of the above, Saturdays will be considered as make-up days for time lost during the normal work week due to weather, and Saturdays which are considered as workable shall offset claims made by the Contractor for adverse weather conditions, unless Contractor had previously submitted a schedule to the Owner that reflected it would work on that Saturday.

§ 8.3.1.1 Adverse weather conditions or precipitation events will be recorded at the Site. They also may include subsequent muck Days, dewatering, and ice/snow removal and other related effects of the weather event. Adverse weather conditions shall not be considered a basis for an extension of Contract Time unless the number of Days of adverse weather conditions experienced during that month fall outside of the number of days Construction Manager has allocated in its schedule for weather delays and are mutually agreed to by Owner and Construction Manager. All adverse weather conditions will be logged by the Contractor daily in the construction Daily Logs and included in a weather report which will be provided monthly to the Owner.

§8.3.1.2. Contractor represents and warrants to Owner, as a material inducement to the execution of this Contract, that Contractor has considered all reasonably foreseeable risks and occurrences that could occur with respect to the timely completion of the Work. Without limiting the foregoing, Contractor warrants and represents that in establishing the Project Schedule, Contractor has given full consideration to and takes responsibility for the effect of inclement weather and adverse weather conditions during the construction period.

§ 8.3.1.3 Extensions of time shall be the Contractor's **sole remedy** for Weather Delay caused by adverse weather conditions but shall only be granted if (a) Contractor provides notice of the adverse weather condition to Owner and Project Manager within **forty-eight (48)** hours of experiencing such adverse weather condition; (b) such delay is beyond what Construction Manager reasonably anticipated in its schedule (c) the delay is substantiated to have affected the critical path of the Project Schedule; and (d) the Owner approves the extension of Contract Time in an approved Change Order.

§ 8.3.2 Non-Weather Delay. If the critical path of the Work of the Contractor is delayed at any time in the commencement or progress of the Work (1) by unanticipated physical conditions at the Project, other than adverse weather conditions (which shall be resolved pursuant to Section 8.3.1 above) fire, pandemics, epidemics, governmental orders or delays, unavoidable casualties, or other causes beyond the Contractor's control and not arising or resulting from the negligence, inattention or fault of Contractor or any of its Subcontractors ("Excusable Delay"); (2) by the acts or negligence of the Owner, Project Manager, or of an employee of Owner, or of a Separate Contractor employed by the Owner; or (3) by changes ordered in the Work, and Contractor has provided a notice of potential delay within **forty-eight (48)** hours of Contractor becoming aware of such event or circumstance, the Contract Time may be extended by Change Order for such time as may be reasonably determined by the Project Manager and approved by Owner, and then only for the amount of time Contractor has been actually and directly delayed and only if allowed under Section 8.3.3 below. Notwithstanding the foregoing, the **Contractor acknowledges and agrees that neither adjustments in the Contract Time nor adjustments in the Guaranteed Maximum Price** will be permitted if (1) any delay is caused by the negligence or fault of the Contractor and/or its Subcontractors; or (2) Contractor failed to provide a notice of potential delay. Contractor acknowledges the limitations of this provision and shall cooperate with Owner to at all times minimize and mitigate the impact of any delay to completion of the Work.

§ 8.3.3 No Damage for Delay. Notwithstanding any other provision in the Contract Documents, an extension of the Contract Time shall be the **sole remedy** of Contractor for Weather Delay. Any delay caused by or resulting from changes ordered in the Work shall be provided in the particular Change Order and no additional Contract Time or cost will be allowed except as agreed therein. As to Excusable Delay or Owner-Caused Delay or interference, extensions of time may be provided but no compensation for delay will be allowed except as set forth in Section 8.3.3.1 below. Contractor shall not be entitled to any compensation or recovery of any other damages including, without limitation, consequential damages, lost opportunity costs, impact damages, loss of productivity, or other similar damages.

§ 8.3.3.1 Excusable Delay and Owner-Caused Delay. Contractor shall provide notice of an Excusable Delay or Owner caused delay within **forty-eight (48)** hours of first experiencing such Delay. The amount of any Claim for damages asserted by Contractor for an Excusable Delay or Owner-Caused Delay shall not exceed the Contractor's actual, direct General Conditions Costs incurred for that certain period of time of the delay and documented reasonable increases to Subcontractor Cost, but not to exceed pre-established labor rates. "Direct General Conditions Costs" shall mean, the allowable Costs of the Work designated as General Conditions Costs in Article 7 of the Agreement. Contractor shall not be entitled to (a) any indirect or consequential damages, (b) home office overhead, home office charges, or any damages based on Eichleay formula calculation; (c) recovery of any damages based on a comparison of planned expenditures to total actual expenditures, or on losses of labor efficiency, or on a comparison of planned manloading to actual manloading, or any other analysis that is used to show damages indirectly; (d) any profits or lost profits, except as expressly recoverable as Contractor's Fee on the Cost of the Work as set forth in the

Agreement; (e) exemplary damages, or (f) unjust enrichment damages. All recoverable costs must be shown to have been *directly caused* by an Excusable Delay or Owner-Caused Delay. For delays attributable to Contractor or its forces occurring concurrently with Excusable Delay or Owner-Caused Delay, Contractor shall be entitled to recover its Direct General Conditions Costs incurred and documented reasonable increases to Subcontractor cost except to the proportionate extent that such delay is attributable to Contractor.

§ 8.3.3.2 The Owner's exercise of any of its rights or remedies under the Contract Documents (including, without limitation, ordering changes in the Work, or directing suspension, rescheduling, or correction of the Work), regardless of the extent or frequency of the Owner's exercise of such rights or remedies, shall not be construed as interference in the Contractor's performance of the Work or a wrongful act of Owner. Notwithstanding Section 8.3.3 or 8.3.3.1 above, no extension of Contract Time or any additional costs shall be granted or allowed unless the Contractor demonstrates that the delay in completion of the Work was caused by a delay in a portion of the Work that was on the critical path of the Project. Nothing contained herein shall prohibit recovery by Owner of liquidated damages for Contractor's delay pursuant to the Agreement. Contractor shall not be compensated nor given extensions of time for delays that are unexcused.

§ 8.3.4 Contractor and all Subcontractors, consultants, and suppliers will comply with all orders, regulations, or requirements issued by any Authority Having Jurisdiction that may affect commercial construction in the county where the Project is located. Contractor and its Subcontractors and suppliers will employ commercially reasonable efforts to mitigate any delays and/or increased costs related to price escalations in the marketplace, tariffs, or labor or materials shortages. Notwithstanding the foregoing, Owner has requested that Contractor prepare the Project Schedule and all bids/proposals keeping in mind reasonably foreseeable delays in deliveries, workforce inefficiencies, price escalations, price fluctuations, and potential shortages of materials. The Owner shall not be required to make any adjustment in either the Contract Sum or Contract Time in connection with any failure by the Contractor or any contractors, subcontractors, or suppliers to comply with the requirements of this Section or to include in the bids/proposals or Project Schedule sufficient time or amounts to address reasonably foreseeable delays in deliveries, workforce inefficiencies, or shortages of materials.

§ 9.3.1.2 As provided in Section 7.3.9, such applications may include requests for payment on account of changes in the Work that have been properly authorized by Owner Change Directives, or by interim determinations of the Architect in consultation with Project Manager, but not yet included in Change Orders.

§ 9.3.1.3 Applications for Payment shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay a Subcontractor or material supplier, unless such Work has been performed by others whom the Contractor intends to pay.

§ 9.3.2 Unless otherwise provided in the Contract Documents, payments shall be made for services provided as well as materials and equipment delivered and suitably stored at the Site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the Site at a location agreed upon in writing. Notwithstanding anything herein to the contrary, if it is reasonably necessary for the Contractor to purchase materials or equipment and store them off-Site in order to maintain the Project Schedule, Owner shall not unreasonably withhold, condition or delay its approval of payment for such items. Payment for materials and equipment stored on or off the Site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and shall include the costs of applicable insurance, storage, and transportation to the Site, for such materials and equipment stored off the Site. Contractor shall also comply with the following requirements:

.1 Materials shall be stored at a commercial warehouse meeting Owner's criteria as stated in this Section 9.3.2.

.2 Title to such materials shall be vested in the Owner as evidenced by documentation satisfactory in form and substance to the Owner including, without limitation, recorded financing statements, UCC filings, and UCC searches.

.3 With each Application for Payment, the Contractor shall submit to the Owner a written list identifying each location where materials are stored off the Site and the value of materials at each location. Timestamped photos of stored materials must be provided with each Application for Payment.

.4 The Contractor shall procure insurance satisfactory to the Owner for materials stored off the Site in an amount not less than the total value thereof and insurance to cover materials in transit from the off-Site storage facility to the Site. Contractor shall provide necessary Certificates of Insurance to demonstrate compliance with the insurance requirements.

.5 Owner and Project Manager shall have the right to make inspections of the storage areas at any time. Warehouse records, receipts and invoices shall be available to Owner upon request to verify the quantities of materials and their disposition. Warehouse and storage facilities must be insured and bonded in such amounts as to cover stored materials.

.6 Such materials shall be (1) protected from diversion, destruction, theft, and damage to the satisfaction of the Owner; (2) specifically marked for use on the Project; and (3) segregated from other materials at the storage facility.

§ 9.3.3 The Contractor warrants that title, but not the risk of loss or damage, to all Work covered by an Application for Payment will pass to the Owner no later than the earlier to occur of (i) incorporation into the Work, or (ii) the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims, security interests, or encumbrances in favor of the Contractor, Subcontractors, material suppliers, or other persons or entities entitled to make a claim by reason of having provided labor, materials and equipment relating to the Work.

§ 9.3.4 The Contractor shall submit with each Application for Payment such releases and waivers of liens as required by Sections 12.1.6.1.4 and 12.1.6.1.5 of the Agreement, duly executed, from itself and each Subcontractor, material supplier, or other person or entity for Work covered by the Application for Payment, and any other items, documents and information required by the Owner to evidence that the Work covered by the Application for Payment has been performed in accordance with the Contract Documents and Applicable Laws. Contractor shall defend, indemnify and hold harmless Owner and any related entities from any liens or bond claims filed by any Subcontractor, laborer, materialman or supplier claiming through Contractor. Such indemnification may be provided through the payment bond required for the Work. If the payment bond fails to satisfy, remove or discharge any such lien or claim, upon **five (5)** Days' notice from Owner that such failure has occurred, Contractor will defend, indemnify and hold harmless Owner from such claim and shall be responsible for all damages, losses, payments, costs and fees, including attorney's fees, incurred by Owner as a result of such claims.

§ 9.3.5 In the event of termination for convenience or cause, or default by the Contractor, the items in storage upon which payment has been made, will be promptly turned over to Owner at a location designated by Owner. All surety bonds provided by Contractor for the Project shall cover any claim respecting materials stored off-Site.

§ 9.4 Certificates for Payment

§ 9.4.1 If the Contractor has complied with Section 12.1.3.1 of the Agreement as it concerns submittal of the Pencil Draw and the subsequent review and submittal of the formal Application for Payment process, Project Manager in consultation with the Architect shall, within the time periods provided in such Section, certify the Application for Payment. Upon certification Project Manager shall issue to the Owner, with a copy to the Architect and Contractor, a Certificate for Payment for such amounts approved, which shall be reduced by retainage, as the Project Manager determines is proper. If the Certificate for Payment cannot be issued, Project Manager shall notify the Owner and Contractor of its reasons for withholding certification of the Application for Payment and issuance of a Certificate for Payment. All Certificates and payments, including those pursuant to a pending Claim, shall be subject to the Owner's approval.

§ 9.4.2 The Architect and Project Manager shall, as appropriate to the type and stage of construction progress and as otherwise required by this Agreement, but not less than monthly, conduct on-Site inspections of the Work to review the progress and quality of the Work, to determine if the Work is proceeding in accordance with the Contract Documents, and to guard the Owner against defects and deficiencies in the Work. On the basis of such on-Site inspections, the Project Manager will work collaboratively with the Architect to certify and issue Certificates for Payment. After the Project Manager and Architect have performed their obligations under this Section 9.4.2, the Project Manager will issue a Certificate for Payment if it finds that all requirements have been met. The Architect's certification of an Application for Payment shall constitute a representation by the Architect to the Owner, based on the Architect's inspections at the Site, that the Work, as inspected by Architect, has progressed to the point indicated and that the quality of the Work is in accordance with the Contract Documents. Project Manager's certification and issuance of a Certificate for Payment shall constitute a representation by the Project Manager, based on its observations at the Site, that the Work has progressed to the point indicated and that the payment requested reasonably corresponds to the quantity of the Work performed as observed by the Project Manager. The issuance of a Certificate for Payment by the Project Manager will not be a representation that the Project Manager has made any examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Guaranteed Maximum Price.

§ 9.4.3 The review by Architect and issuance of a Certificate for Payment by Project Manager shall constitute a recommendation to the Owner in respect to the amount to be paid. This recommendation is not binding on the Owner if, in Owner's opinion, legitimate reasons for nonpayment exist including, but not limited to the reasons set out in Section 9.5.1. If the Owner declines to make payment upon a Certificate for Payment, the Owner shall promptly notify the Contractor of the reasons therefor.

§ 9.5 Decisions to Withhold Certification

§ 9.5.1 A Certificate for Payment may be withheld in whole or in part, to the extent reasonably necessary to protect the Owner due to (a) the inability to certify the Application for Payment as indicated in Section 9.4.2 above; or (b) the determination that the Work has not progressed to the point indicated in the Contractor's Application for Payment. If the Project Manager is unable issue a Certificate for Payment in the amount of the Application for Payment, the Project Manager will notify the Contractor, Architect, and Owner as provided in Section 9.4.1. If the Contractor, Architect, and Project Manager cannot agree on a revised amount, the Project Manager, performing its obligations under Section 9.4, will promptly issue a Certificate for Payment for the amount the Project Manager deems to be due and owing. The Owner, through Project Manager, may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent necessary to protect the Owner from loss for which the Contractor is responsible because of:

- **.1** defective Work not remedied;
- **.2** Contractor has been paid and labor, material or equipment claims are filed by any Subcontractor and the payment bond surety has not responded to the claim as required by the payment bond;
- **.3** failure of the Contractor to make payments properly to Subcontractors or others for labor, materials or equipment;
- **.4** reasonable evidence that the Work cannot be completed for the unpaid balance of the Guaranteed Maximum Price;

.5 damage to the Owner or a Separate Contractor to the extent it is either not covered by Contractor's insurance or Contractor's insurer has not confirmed the existence or amount of coverage;

.6 reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover damages for the anticipated delay permitted under the Contract Documents;

.7 failure to carry out the Work in accordance with the Contract Documents as advised by and with input from the Architect or Project Manager, as necessary to interpret or clarify the Contract Documents;

.8 the assessment of any fines or penalties against Owner as a result of Contractor's failure to comply with Applicable Laws;

.9 discovery that Work associated with a prior payment was not in fact achieved, or that Work associated with a prior payment contained defective Work;

.11 failure of the Contractor or its Subcontractors or other personnel or entities under the control of Contractor to update the Project Schedule, Submittal Log, Daily Log, or to attend Project meetings as required by Owner and/or the Contract Documents;

.12 Contractor has failed to provide any or keep in force or failed to cause a Subcontractor to provide or keep in force any insurance required by this Agreement; or

.13 any material breach of the Agreement or any other reason for which Owner is entitled to withhold payment under this Agreement.

§ 9.5.2 *[Intentionally deleted]*.

§ 9.5.3 When the reasons for withholding certification and/or payment are removed, certification and/or payment will be made for amounts previously withheld. If the Owner through Project Manager withholds certification for payment under Section 9.5.1.3, or if Project Manager or Owner otherwise becomes aware that Contractor is not making proper payments to Subcontractors, the Owner may, at its sole option, issue joint checks to the Contractor and to any Subcontractor or material or equipment suppliers to whom the Contractor failed to make payment for Work properly performed or material or equipment suitably delivered; *provided, however,* nothing contained herein shall obligate Owner to issue such joint checks.

§ 9.5.4 If Contractor disputes any determination by Architect, Project Manager, or Owner with regard to all or any part of an Application for Payment or a Certificate for Payment, Contractor shall nevertheless expeditiously continue to prosecute the Work but shall be entitled to make a Claim as provided in Article 15.

§ 9.6 Progress Payments

§ 9.6.1 After the Architect and Project Manager have each certified the Application for Payment and the Project Manager has issued a Certificate for Payment, the Owner shall make payments in the manner and within the time provided in the Contract Documents. Progress payments will be made as provided in Section 12.1 of the Agreement, assuming a complete Application for Payment package is received pursuant thereto and in conformance with Article 9.3 herein. Notwithstanding the foregoing, Owner may withhold payment as provided in Sections 9.4.3 and 9.5.1 herein.

§ 9.6.2 The Contractor shall promptly pay each Subcontractor no later than **ten (10)** Days after receipt of payment from the Owner, out of the amount paid to the Contractor on account of such Subcontractor's portion of the Work, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in a similar manner.

§ 9.6.3 The Owner will, on request and if practicable, furnish to a Subcontractor information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Architect, Project Manager, and Owner on account of portions of the Work done by such Subcontractor.

§ 9.6.4 Contractor shall use all sums advanced to it pursuant to this Agreement solely for the purpose of performance of the Work in accordance with the Contract Documents. Payments to all Subcontractors, suppliers, materialmen, and other parties furnishing labor and materials in connection with performance of the Work shall be accompanied by Conditional Waiver and Release on Progress/Final Payment documents in conformance with Texas law which shall be signed by the appropriate Subcontractor to release mechanic's and materialman's liens through the effective

date of such previous Application for Payment pursuant to Section 12.1.6.1 of the Agreement. Final payment shall not be released to Contractor until Owner has received the information required by Section 12.2 of the Agreement. Without limiting the foregoing, the Owner shall have the right to contact Subcontractors and suppliers to ascertain whether they have been properly paid. Neither the Owner nor Architect shall have an obligation to pay or to see to the payment of money to a Subcontractor or supplier, except as may otherwise be required by Applicable Law.

§ 9.6.5 Contractor payments to material and equipment suppliers shall be treated in a manner similar to that provided in Sections 9.6.2, 9.6.3 and 9.6.4.

§ 9.6.6 A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of defective Work or Work that does not comply with the Contract Documents or industry standards.

§ 9.6.7 Payments received by the Contractor for Work properly performed by Subcontractors and other persons or entities providing services or work for the Contractor, shall be held by the Contractor for the Subcontractors, for which payment was made by the Owner.

§ 9.6.8 Contractor shall maintain a detailed and accurate accounting system that shall be necessary for the proper financial management of the Project. Contractor's records and receipts shall allow for ready identification of all charges included in contracts, subcontracts, purchase orders, Change Orders, invoices and Applications for Payment.

§ 9.7 Failure of Payment

§ 9.7.1 Subject to Owner's right to withhold sums from payment set forth in Section 9.4.3 and/or 9.5.1 above, if the Project Manager does not issue a Certificate for Payment, through no fault of the Contractor, within **ten (10)** Days after receipt of the Contractor's Application for Payment, or if the Owner does not pay the Contractor within the time periods established in the Contract Documents the amounts due to Contractor pursuant to the Contract Documents, then the Contractor may, upon **ten (10)** additional Days' written notice to the Owner and Architect, stop the Work until payment of the amount owing has been received. The Contract Time shall be extended appropriately and the Guaranteed Maximum Price shall be increased by the amount of the Contractor's reasonable costs of shut-down, delay and start-up, plus interest as provided for in the Contract Documents.

§ 9.7.2 If the Owner is entitled to reimbursement or payment from the Contractor under or pursuant to the Contract Documents, such payment shall be made promptly upon demand by the Owner. Notwithstanding anything contained in the Contract Documents to the contrary, if the Contractor fails to promptly make any payment due the Owner within **thirty (30)** Days of notice of the amount due, or the Owner incurs any costs and expenses to cure any default of the Contractor or to correct defective Work, the Owner shall have an absolute right to offset such amount against the Contract Sum and may, in the Owner's sole discretion, elect either to: (1) deduct an amount equal to that which the Owner is entitled from any payment then or thereafter due the Contractor from the Owner; or (2) issue a written notice to the Contractor reducing the Guaranteed Maximum Price by an amount equal to that which the Owner is entitled.

§ 9.8 Substantial Completion

§ 9.8.1 In addition to such other requirements and conditions as set forth in the Agreement, Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy and utilize the Work for its intended use; provided, however, as a condition precedent to Substantial Completion, in addition to such other requirements and conditions as set forth in this Agreement, the Texas Department of Health and Human Services ("TDHHS") and any other Authority Having Jurisdiction over the Project has certified that the Work is complete and can be occupied, all systems and facilities necessary for the Owner's occupancy of the premises have been installed and are in good operating order and condition, equipment has been fully tested, balanced, and commissioned, and Owner has received all certificates of occupancy or their equivalent (which may be temporary) and any other permits, approvals, licenses, and other documents from any Authority Having Jurisdiction thereof necessary for the beneficial occupancy of the Project (or if the same cannot be delivered for reasons not the fault or responsibility of Contractor, nevertheless all Contractor's obligations necessary to the issuance of such certificates, permits, approvals, or licenses will have been performed); and the Contractor has certified that all remaining Punchlist items (as defined in Section 9.8.2) can be completed within **thirty (30)** Days. In general, the only remaining Work shall be minor in nature, so that the Owner could occupy and utilize the Project on that date and the completion of the Work by the Contractor would not materially interfere or hamper the normal business operations, and any Punchlist

items may be completed within the time periods as established in the Agreement for Final Completion following Substantial Completion.

§ 9.8.1.1 Contractor shall achieve Substantial Completion of the Work no later than the date established in Section 4.3 of the Agreement. Contractor shall achieve completion of all Punchlist items no more than **thirty (30)** Days after Contractor reaches Substantial Completion. Final Completion of the Work, which without limitation shall include the delivery of all Close-out Documents, the completion of requirements of Section 9.8.1 above, and Contractor's submission of the final accounting, shall be achieved within the time period provided in Section 4.3 of the Agreement which shall be no more than **sixty (60)** Days after achieving Substantial Completion.

§ 9.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect and Project Manager a comprehensive Punchlist of items to be completed or corrected prior to Final Payment. Failure to include an item on such Punchlist does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. The Contractor shall proceed promptly to complete and correct all items on the list. The Contractor shall not consider the Work to be substantially complete for purposes of providing a Punchlist to Owner until all Project systems included in the Work are operational as designed and scheduled, all designated or required inspections and certifications by Authorities Having Jurisdiction have been made and posted, designated instructions of the Owner and Project Manager with respect to the operation of specific systems has been completed, and all final finishes required by the Contract Documents are in place.

§ 9.8.3 Upon receipt of the Contractor's Punchlist, the Owner, Architect and Project Manager will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the inspection discloses any item, whether or not included on the Contractor's Punchlist, which is not sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by the Architect or Owner. In such case, the Contractor shall then submit a request for another inspection by the Owner. Architect, and Project Manager to determine Substantial Completion.

§ 9.8.4 When the Work or designated portion thereof is substantially complete, the Contractor will prepare for Owner's approval and signature a Certificate of Substantial Completion that shall, upon Owner's signature, establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ 9.8.5 The Certificate of Substantial Completion shall be submitted by the Contractor to the Owner for written acceptance of responsibilities assigned to it in the Certificate.

§ 9.9 Partial Occupancy or Use

§ 9.9.1 The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by Authorities Having Jurisdiction. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor shall prepare and submit a Punchlist to the Owner, Architect, and Project Manager as provided under Section 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor.

§ 9.9.2 Immediately prior to such partial occupancy or use, the Owner, Contractor, and Architect shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

§ 9.9.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

§ 9.10 Final Completion and Final Payment

§ 9.10.1 At the point Contractor determines that all Punchlist items have been resolved, the Work has reached the stage of Final Completion, is in accordance with the Contract Documents, and that the Contract has been fully performed, Contractor shall notify Owner, Architect, and Project Manager. Upon Owner's receipt of (a) the Contractor's written notice that the requirements of this Section 9.10.1 and Section 9.10.2 have been met and the Work is ready for final inspection and acceptance, and (b) the final Application for Payment and other documentation required by the Contract Documents for Final Payment have been provided to Owner, the Owner, Architect, and Project Manager will inspect the Work for Final Payment. When the Owner, Architect, and Project Manager find the Work acceptable under the Contract Documents and the Work (including all Punchlist items, commissioning obligations, and training of Owner's staff) fully performed and all required documents delivered, the Project Manager will, subject to Section 9.10.2 and Section 12.2 of the Agreement, issue a final Certificate for Payment for acceptance by Owner.

§ 9.10.2 Neither Final Payment nor any remaining retained percentage shall become due, and the Project shall not be deemed to have reached Final Completion until the Contractor satisfies all of the requirements contained in Section 12.2.1 of the Agreement and elsewhere in the Contract Documents.

§ 9.10.3 If, after Substantial Completion of the Work, Final Completion thereof is materially delayed through no fault of the Contractor or by issuance of Change Orders affecting Final Completion, and the Architect and Project Manager so confirm, the Owner shall, upon application by the Contractor and certification by the Architect and Project Manager, and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed, and accepted. If the remaining balance for Work not fully completed or corrected is less than retainage stipulated in the Contract Documents, and if bonds have been furnished, the written consent of surety to payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by the Contractor to the Architect prior to certification of such payment. Such payment shall be made under terms and conditions governing Final Payment, except that it shall not constitute a waiver of claims. Final Payment shall not be paid prior to **thirty (30)** Days following Final Completion of the Work, satisfaction of the requirements of Sections 9.10.1 and 9.10.2, and receipt of the required documents and performance of items listed in Section 12.2.1 of the Agreement.

§ 9.10.4 No inspections of the Project conducted by Owner, Project Manager, or Architect during the course of construction, either singularly or in the aggregate, shall reduce the level or extent of Contractor's responsibilities arising pursuant to this Agreement. Neither the approval and/or final acceptance of the Project or any documents prepared by Contractor, the payment of any pay application, or the issuance of any Certificates of Final or Substantial Completion shall constitute, nor be deemed, a release of Contractor's obligation to perform and deliver the Work provided in the Agreement and hereunder in a manner consistent with: (i) industry standards; and (ii) as required by the Contract Documents. No approvals or acceptances by, or on behalf of, Owner shall be deemed to be a waiver of any of Owner's rights or claims or an assumption of any responsibility by Owner for any defect, error, or omission in the Work provided by Contractor under this Contract.

§ 9.10.5 Acceptance of Final Payment by the Contractor, a Subcontractor or material supplier shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment or those claims that would otherwise survive completion and acceptance of the Work and Final Payment as allowed under Texas law.

§ 9.11 Record Retention

Contractor shall keep and maintain under generally accepted accounting principles full, true and complete lien waivers and releases, financial, and other records related to the Project for a minimum period of **five (5)** years after the date Final Completion or for such longer period as may be required by Applicable Law. Retention time shall be extended when an audit is scheduled or in progress for a period reasonably necessary to complete an audit and/or to complete any administrative or dispute resolution proceeding which may ensue.

§ 9.11.1 Audit Rights. Owner shall have the right, at any time and upon reasonable notice, to verify and audit the details of Contractor's billings, certificates, accountings, cost data, and statements, and any other accounting data or data supporting Contractor's Application for Payment, before or after any payment, by (1) inspecting the books and

§ 12.2.1.1 The Contractor shall promptly correct Work that is incomplete, defective or rejected by the Architect or Owner or failing to conform to the requirements of the Contract Documents, whether discovered before or after Substantial Completion and whether or not fabricated, installed or completed. Costs of correcting such Work, including additional testing and inspections, the cost of uncovering and replacement, and compensation for the Architect's and Project Manager's services and expenses made necessary thereby, shall be without change in the Contract Time or Guaranteed Maximum Price (subject to applicable limitations in the Agreement on reimbursement for Cost of the Work) to the extent incurred prior to Final Payment and at the Contractor's expense (not chargeable to the Guaranteed Maximum Price or otherwise reimbursable from Owner) after Final Payment. If prior to the date of Substantial Completion, the Contractor, a Subcontractor, or anyone for whom either is responsible uses or damages any portion of the Work, including, without limitation, mechanical, electrical, plumbing and other building systems, machinery, equipment or other mechanical device, the Contractor shall cause such item to be restored to "like new" condition at no expense to the Owner.

§ 12.2.1.2 Contractor shall correct any defects in the Work or damage to other property caused by defects in the Work or the repairing of such defects with a minimum of inconvenience to Owner and at times least disruptive to the Owner's operations. The Contractor will have the right to access the Site to perform warranty Work. This right survives the completion of the Project. Any Contractor requests for Project access will require a minimum of **forty-eight (48)** hours' written notice to Owner for inspections, Site visits, and investigations. Work required to correct any deficiencies will be coordinated with the Owner to be performed at a time and in a manner that does not impact Owner's operations. Proper safety and infection control measures shall be obtained and adhered to during the commencement of the corrected Work.

§ 12.2.2 After Substantial Completion

§ 12.2.2.1 In addition to the Contractor's obligations under Section 3.5, if, within **two (2)** years after the date of Substantial Completion of the Work or designated portion thereof or by terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. The Owner shall give such notice promptly after discovery of the condition. If the Contractor fails to correct nonconforming Work within a reasonable time during that period after receipt of notice from the Owner, the Owner may correct it and seek reimbursement from Contractor. Nothing herein shall be construed to negate or limit Contractor's obligations set forth in any Warranty or Section 3.18 above, including without limitation, Contractor's duties to defend and indemnify the Owner and all Indemnitees. Contractor acknowledges that Contractor's **two-(2)** year warranty/corrective period and any special warranties provided by Contractor are in addition to and not in lieu of any warranties, indemnities, claims, rights, actions or remedies that Owner may have in the Contract Documents, or pursuant to Applicable Law, or in equity, for defective Work or breach of the Contract Documents. Owner expressly reserves all rights and remedies available under Applicable Law for and during the full period of time allowed under any statutes of repose and statutes of limitations under Texas law. All obligations under this Section 12.2.2 shall survive acceptance of the Work under the Contract.

§ 12.2.2.2 Contractor shall maintain a complete and accurate schedule of the dates upon which the corrective periods or express warranties will expire. Contractor agrees to provide notice of the warranty expiration date to Owner and Architect at least **one (1)** month prior to the expiration of each such applicable corrective / warranty period. Prior to expiration of **one (1)** year from the date of Substantial Completion, Contractor shall accompany the Owner, Project Manager, and Architect (if requested by Owner) on re-inspection of the improvements or building(s) covered thereby and shall be responsible for correcting any reasonable additional deficiencies not caused by the Owner or by the use of the respective improvements or building which are observed or reported during the re-inspection. For extended warranties expressly required by the Contract Documents (i.e., roofing, compressors, mechanical equipment), Owner will notify the Contractor of deficiencies and Contractor shall start remedying these defects within **five (5)** Days of initial notification from Owner. Contractor shall prosecute the Work without interruption until accepted by the Owner and the Architect (if retained by the Owner for such purpose), even though such prosecution should extend beyond the limit of the warranty period. The **one (1)** year reinspection by Owner, Project Manager and Contractor shall in no way waive or release Contractor from the **two (2)** year corrective/warranty period required in Section 12.2.2.1 above.

§ 12.2.2.3 The **two (2)** year period for correction of Work shall be extended with respect to portions of Work first performed after Substantial Completion by the period of time between Substantial Completion and the actual completion of that portion of the Work. Any corrective Work performed or to be performed under or pursuant to Section 12.2 shall be warranted to the same extent as the Work is warranted hereunder or under the applicable warranty period stated in any separate warranty.

§ 12.2.2.4 If during the **two (2)** year period for correction of the Work the Contractor fails to correct nonconforming Work within a reasonable time, the Owner may correct it in accordance with Section 2.5. If the Contractor does not proceed with correction of such nonconforming Work, Owner may remove such nonconforming Work and store the salvageable materials or equipment and charge the cost thereof to the Contractor. If the Contractor does not pay costs of such removal and storage within **ten (10)** Days after written notice, Owner may upon **ten (10)** additional Days' written notice sell such materials and equipment at auction or at private sale, and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by the Contractor, including compensation for the Architect's services and expenses made necessary thereby. If such proceeds of sale do not cover costs which the Contractor should have borne, the Guaranteed Maximum Price shall be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, Contractor shall pay the difference to the Owner upon demand.

§ 12.2.3 The Contractor shall remove from the Site portions of the Work that are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner. When the nonconforming Work is found, the entire area of Work involved shall be corrected unless the Contractor can completely define the limits to the Architect's and Owner's satisfaction. Additional testing, sampling or inspecting needed to define nonconforming Work and retesting corrected Work shall be at the Contractor's expense, including the additional cost of employment of the Owner's independent testing laboratory, if such services are required. Additional architectural or engineering service required to analyze nonconforming Work shall be paid for by the Contractor.

§ 12.2.4 The Contractor shall bear the cost of correcting destroyed or damaged construction whether completed or partially completed, of the Owner or Separate Contractors caused by the Contractor's correction or removal of Work that is not in accordance with the requirements of the Contract Documents.

§ 12.2.5 Nothing contained in this Section 12.2 shall be construed to establish a period of limitation with respect to other obligations the Contractor has under the Contract Documents. Establishment of the **two (2)** year period for correction of Work as described in Section 12.2.2 relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work. Nothing contained herein or in the Contract Documents shall waive or limit any of Owner's rights under *Tex. Civ. Prac. & Rem. Code § 16.009* or other Applicable Law. The obligations under Section 12.2 shall survive acceptance of the Work and termination of the Contract and Final Payment by the Owner.

§ 12.3 Acceptance of Nonconforming Work

If the Owner prefers to accept Work that is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Guaranteed Maximum Price will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not Final Payment has been made.

assignment without such consent, Contractor shall nevertheless remain legally responsible for all obligations under the Contract.

§ 13.3 Rights and Remedies

§ 13.3.1 Duties and obligations imposed by the Contract Documents and rights and remedies available thereunder shall be in addition to and not a limitation of duties, obligations, rights and remedies otherwise imposed or available by law.

§ 13.3.2 No action or failure to act by the Owner, Architect, Project Manager, or Contractor shall constitute a waiver of a right or duty afforded them under the Contract, nor shall such action or failure to act constitute approval of or acquiescence in a breach there under, except as may be specifically agreed in writing. No waiver of any provision of the Contract shall be of any force or effect, unless such waiver is in writing, expressly stating to be a waiver of a specified provision of the Contract and is signed by the party to be bound thereby. Either party's waiver of any breach or failure to enforce any of the provisions of the Contract at any time, shall not in any way limit or waive that party's right thereafter to enforce or compel strict compliance with the Contract or any portion or provision or right under the Contract.

§ 13.4 Tests and Inspections

§ 13.4.1 Tests, inspections, and approvals of portions of the Work shall be made as required by the Contract Documents and by Applicable Law, statutes, ordinances, codes, rules, and regulations or lawful orders of Authorities Having Jurisdiction. Unless otherwise provided, the Contractor shall make arrangements for such tests, inspections, and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate Authorities Having Jurisdiction, and shall bear all related costs of tests, inspections, and approvals. The Contractor shall give the Architect, Project Manager, and Owner timely notice of when and where tests and inspections are to be made so that the Owner and Project Manager may be present for such procedures. The Owner shall bear costs of (1) tests, inspections or approvals that do not become requirements until after bids are received or negotiations concluded, and (2) tests, inspections or approvals where building codes or Applicable Law or regulations prohibit the Owner from delegating their cost to the Contractor; provided, however, that all costs and expenses incurred following a failed test, inspection, or approval (including costs of repeated testing and compensation for the services of Architect and other Owner expenses) shall be at the sole cost and expense of Contractor, and such costs and expenses shall not be a permitted Cost of the Work under Article 7 of the Agreement. No inspection performed or failed to be performed shall constitute a waiver of any of the Contractor's obligations or be construed as an approval or acceptance of any nonconforming or defective Work.

§ 13.4.2 If the Architect, Owner, or Authorities Having Jurisdiction determine that portions of the Work require additional testing, inspection, or approval not included under Section 13.4.1, the Project Manager will, upon written authorization from the Owner, instruct the Contractor to make arrangements for such additional testing, inspection, or approval, by an entity acceptable to the Owner and Project Manager, and the Contractor shall give timely notice to the Owner and Project Manager of when and where tests and inspections are to be made so that the Architect, Owner, and Project Manager may be present for such procedures. Contractor shall be responsible for the planning, scheduling, coordination, access, and performing any corrections required to bring the Work in compliance with the Contract Documents. Such costs, (including costs of repeated testing and compensation for the services of Architect and other Owner expenses) shall be at the sole cost and expense of Contractor, and such costs and expenses shall not be a permitted Cost of the Work under Article 7 of the Agreement.

§ 13.4.3 If such procedures for testing, inspection, or approval under Sections 13.4.1 and 13.4.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure, including those of repeated procedures and compensation for the Architect's services and expenses, shall be at the Contractor's expense, and such costs and expenses shall not be a permitted Cost of the Work under Article 7 of the Agreement.

§ 13.4.4 Required certificates of testing, inspection, or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Architect and Project Manager.

§ 13.4.5 If the Architect, Project Manager, or Owner is to observe tests, inspections, or approvals required by the Contract Documents, the Architect, Project Manager, and Owner will do so promptly and, where practicable, at the normal place of testing.

§ 13.4.6 Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

§ 13.4.7 In the event Contractor fails or refuses to provide for testing and inspection services as required by Owner or Project Manager and it becomes necessary for Owner to provide a Separate Contractor for testing and inspection services, all costs and expenses associated with retaining the services of the Separate Contractor for testing and inspection services shall be borne by Contractor and Owner shall be entitled to deduct the cost of such services from such amounts as may be due Contractor. Owner will provide notification of such costs to Contractor within **ten (10)** Days of receipt of an invoice for such services.

§ 13.4.8 If the Owner requests the Contractor or Subcontractors to execute certificates, other than those required by Section 13.4.4, the Owner shall submit the proposed language of such certificates for review at least **fourteen (14)** Days prior to the requested dates of execution. If the Owner requests the Contractor or Subcontractors to execute consents reasonably required to facilitate assignment to a lender, the Contractor or Subcontractors shall execute all such consents that are consistent with this Agreement, provided the proposed consent is submitted to them for review at least **fourteen (14)** Days prior to execution. The Contractor and Subcontractors shall not be required to execute certificates or consents that would require knowledge, services or responsibilities beyond the scope of their work.

§ 13.5 Interest

Payments due and unpaid under the Contract Documents shall bear interest from the date payment is due at the rate set forth in Section 12.3 of the Agreement.

§ 13.6 Written Notice

Written notice shall be deemed to have been duly served if delivered in conformance with Section 15.7.3 of the Agreement.

ARTICLE 14 TERMINATION OR SUSPENSION OF THE CONTRACT

§ 14.1 Termination by the Contractor

§ 14.1.1 The Contractor may terminate the Contract if the Work is stopped for a period of **one hundred twenty (120)** consecutive Days in any **three hundred sixty-five (365)** Day period through no act or fault of the Contractor or a Subcontractor, or their agents or employees or any other persons or entities performing portions of the Work under direct or indirect contract with the Contractor, for any of the following reasons:

.1 Issuance of an order of a court or other Authorities Having Jurisdiction that requires all Work to be stopped;

.2 An act of government, such as a declaration of national emergency, that requires all Work to be stopped; or

.3 Because the Architect has not certified an Application for Payment and has not notified the Contractor of the reason for withholding certification as provided in Section 9.5.1, or because the Owner has not made payment on a Certificate for Payment as to which there is no good faith dispute within the time stated in the Contract Documents.

.4 [*Intentionally deleted*].

§ 14.1.2 The Contractor may terminate the Contract if, through no act or fault of the Contractor or any Subcontractor, or their agents or employees or any other persons or entities performing portions of the Work under direct or indirect contract with the Contractor, repeated suspensions, delays or interruptions of the entire Work by the Owner as described in Section 14.3 constitute in the aggregate more than one hundred percent (100%) of the total number of Days scheduled for completion, or **one hundred twenty (120)** consecutive Days in any **three hundred sixty-five (365)** Day period, whichever is less.

§ 14.1.3 If one of the reasons described in Section 14.1.1 or 14.1.2 exists, the Contractor shall provide written notice to Owner of the Contractor's intention to terminate, setting forth in detail the reason therefore. If the Owner fails to commence correction of any of the reasons stated in such notice within **ten (10)** Days of receipt of such notice, the Contractor may, upon **ten (10)** additional Days' written notice to the Owner, terminate the Contract and recover from the Owner damages incurred as a result of the termination as allowed by Applicable Law. Notwithstanding the foregoing, the Owner shall not be responsible for damages for unincurred overhead, unabsorbed home office overhead, anticipated profit on Work not performed, unjust enrichment damages, or other damages disallowed under Texas Law.

§ 14.1.4 If the Work is stopped for a period of **one hundred twenty (120)** consecutive Days in any **three hundred sixty-five (365)** Day period through no act or fault of the Contractor or a Subcontractor or their agents or employees or any other persons performing portions of the Work under direct or indirect contract with the Contractor because the Owner has otherwise repeatedly failed to fulfill the Owner's obligations under the Contract Documents with respect to matters important to the progress of the Work (other than Owner's failure to make payment under Article 9 above), the Contractor may, upon **ten (10)** additional Days' written notice to the Owner and the Architect, terminate the Contract and recover from the Owner as provided in Section 14.1.3 to the extent allowed under *Tex. Local Gov't. Code § 271.153(b)* and only if the basis for such termination has not been removed or cured prior to the effective date of termination.

§ 14.2 Termination by the Owner for Cause

§ 14.2.1 The Owner may terminate the Contract if the Contractor:

- **.1** refuses or fails to supply enough properly skilled workers or proper materials and/or equipment;
- **.2** fails to make payment to Subcontractors for materials or labor in accordance with the respective agreements between the Contractor and the Subcontractors;
- **.3** disregards Applicable Laws;
- **.4** assigns the Contract or any part thereof in violation of the Contract Documents;
- **.5** sublets Work in violation of the Contract Documents;
- **.6** becomes insolvent or makes a general assignment for the benefit of Contractor's creditors, or a trustee or receiver is appointed for Contractor or for any of its property;
- **.7** fails to commence the Work in accordance with the provisions of this Agreement;
- **.8** fails to diligently prosecute the Work to completion thereof in an efficient, timely workmanlike, skillful and careful manner and in strict accordance with the provisions of the Contract Documents (including the Required Dates for Interim Milestones, Date of Substantial Completion, and date of Final Completion, and other dates set forth in this Agreement);
- **.9** abandons any or all of the Work to be performed under the Contract; or
- **.10** otherwise does not fully comply with the Contract Documents or otherwise materially breaches the Agreement.

§ 14.2.2 When any of the above reasons exist, the Owner may without prejudice to any other rights or remedies of the Owner and after giving the Contractor and the Contractor's surety **ten (10)** Days' written notice, terminate employment of the Contractor and may, subject to any prior rights of the surety:

- **.1** Exclude the Contractor from the Site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by the Contractor;
- **.2** Accept assignment of subcontracts pursuant to Section 5.4; and
- **.3** Finish the Work by whatever reasonable method the Owner may deem expedient. Upon written request of the Contractor, the Owner shall furnish to the Contractor a detailed accounting of the costs incurred by the Owner in finishing the Work.

Notwithstanding the foregoing, if Owner reasonably determines that Contractor's acts or omissions pose an immediate and substantial threat or danger of injury to persons or damage to the Work or other property, Owner may, without prejudice to any other rights or remedies granted by this Contract or by Applicable Law, immediately suspend Contractor's performance of the Work, take immediate possession of the Site, take such further action reasonably necessary to prevent, mitigate against, remove, or repair such threat or damage, and deduct such costs and expenses it reasonably incurs from any sums due and owing to the Contractor or, in the absence thereof, to recover such costs and expenses from the Contractor.

§ 14.2.3 When the Owner terminates the Contract for one of the reasons stated in Section 14.2.1, Contractor shall not be entitled to receive any further payment until the Work is finally completed. It is expressly agreed that pursuit by Owner of any one or more of the remedies provided herein or otherwise available under Applicable Law or in equity shall not constitute an election of remedies by Owner, nor shall forbearance by Owner to enforce one or more of the remedies provided herein upon an event of default by Contractor be deemed or construed to constitute a waiver of such default. Upon receipt of any such written notice of termination of right to proceed, the Contractor shall, at its expense, for that Work affected by any such termination:

- **.1** Make an inventory of all materials and equipment in storage at the Site, in route to the Site, in storage or manufacture away from the Site, and on order from suppliers;

.2 Assign to the Owner contracts, subcontracts, supply contracts, and equipment rental agreements all as designated by the Owner; and

.3 Remove from the Site all construction materials and equipment listed in said inventory other than such construction materials and equipment which are designated in writing by the Owner to be used by the Owner in completing such Work.

§ 14.2.4 Owner retains the right to pursue Contractor for any and all damages and/or costs incurred by Owner in completing the Contract. This right shall survive the termination of the Contract.

§ 14.2.5 If, after termination of this Contract under this Section 14.2, it is determined that the Contractor was not in default or that sufficient cause to terminate hereunder did not exist, the rights and obligations of the parties shall be determined as if the termination had been issued for the convenience of the Owner as provided in Section 14.4 below.

§ 14.3 Suspension by the Owner for Convenience

§ 14.3.1 The Owner may, without cause, order the Contractor in writing to suspend, delay or interrupt the Work in whole or in part for such period of time as the Owner may determine. Upon receipt of such notice, the Contractor shall, unless the notice required otherwise:

.1 Immediately discontinue Work on the date and to the extent specified in the notice;

.2 Place no further orders, contracts, or subcontracts for material, services, or facilities with respect to suspended Work other than to the extent required in the notice;

.3 Promptly make every reasonable effort to obtain suspension upon terms satisfactory to the Owner of all orders, contracts, subcontracts, and rental agreements to the extent that they relate to performance of Work suspended; and

.4 Unless otherwise specifically stated in the notice, continue to protect and maintain the Project, including those portions on which Work has been suspended.

§ 14.3.2 The Guaranteed Maximum Price and Contract Time shall be adjusted for increases in the cost and time caused by suspension, delay, or interruption as described in Section 14.3.1 to the extent allowed under Section 8.3 (including subsections therein), or Section 15.1.5.1, but in no case in excess of any amounts allowed under Texas Law and Section 8.3.3.1. No adjustment shall be made to the extent.

.1 that performance is, was or would have been, so suspended, delayed, or interrupted, by another cause for which the Contractor is responsible; or

.2 that an equitable adjustment is made or denied under another provision of the Contract.

§ 14.3.3 Adjustments made in the cost of performance shall be limited to the increase or decrease in the cost of performance directly attributable to such suspension.

§ 14.3.4 When all or a portion of the Work is suspended for any reason, as part of the scope of Work, the Contractor shall securely fasten down all coverings and protect the Work, as necessary. Costs for doing so shall be compensable pursuant to Section 14.3.2 but only to the extent not otherwise provided for in the Guaranteed Maximum Price.

§ 14.4 Termination by the Owner for Convenience

§ 14.4.1 The Owner may, at any time, terminate the Contract for the Owner's convenience and without cause.

§ 14.4.2 Upon receipt of written notice from the Owner of such termination for the Owner's convenience, the Contractor shall immediately;

.1 cease operations as directed by the Owner in the notice;

.2 take actions necessary for the protection and preservation of the Work;

.3 except for Work directed to be performed prior to the effective date of termination stated in the notice and subcontracts, supply contracts, and rental agreements owner accepts pursuant to Section 5.4 and terminate any remaining subcontracts, purchase orders and rental agreements and enter into no further Project agreements and purchase orders;

.4 place no further orders, contracts, or subcontracts for material, services, or facilities except as may be necessary or required for completion of such portion of the Work under the Contract that is not terminated;

.5 assist the Owner as specifically requested, in writing, in the maintenance, protection, and disposition of property acquired by the Owner under the Contract; and

.6 transfer to the Owner title to Work completed for which payment is made to the Contractor

§ 14.4.3 In case of such termination for the Owner's convenience, the Contractor shall be entitled to receive payment for (a) Work properly executed in accordance with the Contract Documents prior to the effective date of termination, including any General Conditions Costs and Fee on Work completed, as measured by the Contract Sum allocated by the Schedule of Values, and (b) the direct, actual and unavoidable (by the exercise of reasonable care) costs incurred by Contractor in terminating the Work and demobilizing the Site, Contractor shall also be entitled to payment for materials timely fabricated off the Site and delivered and stored in accordance with the Owner's instructions. Owner shall not be liable for and Contractor shall not be entitled to payment for Work not performed, overhead or profit on Work not performed, or any other amount disallowed under *Tex. Local Gov't. Code § 271.153(b)*. The amounts owing by the Owner to Contractor pursuant to this Section shall be specified in Contractor's Final Application for Payment approved by Owner, which Application is subject to all requirements set forth in Article 9 and Section 12.2 of the Agreement, to the extent applicable. Contractor's entitlement to receive its final termination payment under this provision shall require a final lien waiver from Contractor and from Subcontractors whose subcontracts are not being continued by Owner, such documents to be the same form and delivered under the same conditions as required for Final Payment absent a termination under this provision. Owner shall be entitled to take possession of the Work and use copies of all files relating to performance of the Work of Contractor in completing the Work, except for confidential or proprietary information regarding Contractor.

ARTICLE 15 CLAIMS AND DISPUTES

§ 15.1 Claims

§ 15.1.1 Definition

A Claim is a demand or assertion by one of the parties seeking, as a matter of right, payment of money, a change in the Contract Time, or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. The responsibility to substantiate Claims shall rest with the party making the Claim. This Section 15.1.1 does not require the Owner to file a Claim in order to impose liquidated damages in accordance with the Contract Documents.

§ 15.1.2 Time Limits on Claims

The Owner and Contractor shall commence all Claims and causes of action against the other and arising out of or related to the Contract, whether in contract, tort, breach of warranty or otherwise, in accordance with the requirements of the binding dispute resolution method selected in the Agreement and within the period specified by Applicable Law.

§ 15.1.3 Notice of Claims

Unless otherwise prescribed elsewhere in the Contract Documents, Claims by the Contractor must be initiated by written notice (the "Notice of Potential Claim") to Owner, with a copy sent to the Project Manager, within **twenty-one (21)** Days after occurrence of the event giving rise to such Claim or within **twenty-one (21)** Days after the Contractor first recognizes the condition giving rise to the Claim, whichever is later.

§ 15.1.4 Continuing Contract Performance

Notwithstanding any Claim, dispute, controversy, or question that might arise in the interpretation of any provision of the Contract Documents, the performance of any Work, the delivery of any material, the payment of any monies to Contractor, or otherwise, Contractor agrees that it will not directly or indirectly stop or delay any Work or part thereof on its part required to be performed, nor will it stop or delay the delivery of any materials on its part required to be furnished for the Work, pending the determination of such Claim, dispute, or controversy so long as Owner pays Contractor for undisputed amounts in accordance with the Agreement.

Architect in writing. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Section 10.4.

§ 15.1.5.1 Contractor shall not be entitled to recover damages in excess of those allowed under the Agreement, Section 8.3.3.1 herein, or under Applicable Law.

§ 15.1.5.2 All Claim notices shall itemize the claim and shall contain sufficient detail and supporting data to permit evaluation of same by Owner, Project Manager and Architect. No Claim shall be valid unless the requirements set forth in this Section 15.1.5 are followed.

§ 15.1.5.3 Any change in the Agreement resulting from such Claim shall only be valid if included as a Change Order.

§ 15.1.6 Claims for Additional Time

§ 15.1.6.1 If the Contractor intends to make a Claim for an increase in the Contract Time, written notice as provided herein shall be given. The Contractor's notice shall include the probable effect of delay on progress of the Work. In the case of a continuing delay, only one Claim is necessary; provided, however, that the Contractor shall provide to the Owner, Project Manager, and Architect, promptly upon request, additional information regarding the status of such delay. Any change in the Contract Time resulting from such Claim and approved by Owner shall be authorized by a Change Order in accordance with the provisions of Section 7.2. In any Claim by Contractor for any increase in the Contract Time or the Guaranteed Maximum Price, if permitted in the Contract Documents, Contractor shall demonstrate that the event giving rise to the Claim was beyond the Contractor's control, delayed the critical path of the Project and that Contractor has provided Owner with such notice as required herein. Contractor shall provide notice of a potential delay even if Contractor is uncertain the event or circumstance will actually cause a delay in performance of the Work.

§ 15.1.6.2 If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that adverse weather conditions exceeded the number of Days calculated as provided at Section 8.3.1 and had an adverse effect on the critical path of the scheduled construction. The Contractor shall document such Claim in writing to the Owner, Architect and Project Manager within the time period set forth in Section 15.1.2. Notice of a potential delay must also have been provided within **forty-eight (48)** hours of Contractor becoming aware of such event or circumstance.

§ 15.1.7 **Waiver of Claims for Consequential Damages**

The Contractor and Owner waive Claims against each other for consequential damages arising out of or relating to this Contract. This mutual waiver includes

- **.1** damages incurred by the Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and
- **.2** damages incurred by the Contractor for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit, except anticipated profit arising directly from the Work.

This waiver on consequential damages shall not, in any event, apply to (1) any actual, direct or "non-consequential" damages incurred by Owner for any reason; (2) damages covered by, arising out of, or related to Construction Manager's indemnification obligations set forth in the Agreement; (3) any damages recoverable under any insurance policy required by the Contract Documents ; and (4) Construction Manager's obligation to pay liquidated damages, as set forth in the Agreement. This mutual waiver is applicable, without limitation, to all consequential damages due to either party's termination in accordance with Article 14.

§ 15.4 Arbitration

[Intentionally deleted. The Parties shall litigate all disputes].

§16 Price Escalation

Owner and Construction Manager acknowledge and agree that material and labor shortages and price escalations may occur directly or indirectly as a result of the current state of the market. Owner has requested that Construction Manager use commercially reasonable efforts to promptly buyout the work and prepare the Contract Sum and Contract Time with governmental restrictions, known delays in deliveries, workforce inefficiencies, price escalations, material shortages, in mind, each to the extent in effect or known at the time the GMP Amendment is submitted. The parties also acknowledge that some scope for the Project is yet to be defined and Construction Manager has a limited ability to mitigate against price escalation for that undefined scope. To further anticipate and mitigate the risk of price escalation, Owner and Construction Manager agree that at least the materials set forth in the GMP Amendment may be subject to price escalation, material shortages and/or material unavailability arising from tariffs, the current state of the market, and/or other supply chain issues. As such, in order to share the risk of material and labor shortages and price escalation, Construction Manager agrees to fund up to 3% of the Cost of the Work in price escalation costs using the Contract Sum, upon receiving Owner's approval. Such approval shall not be unreasonably withheld. After this 3% price escalation is suffered, Owner shall issue Change Orders increasing the Contract Sum for all remaining escalation costs. In order to document price escalation, Construction Manager will (1) provide supporting documentation in the form of new bids or bills of lading from subcontractors reasonably substantiating the cost increase and (2) in the event of the unavailability of the material (i) promptly inform Owner of the unavailability of any such material; (ii) provide appropriate supporting documentation regarding such impact; and (iii) at the least additional cost procure suitable replacement materials upon written approval of Owner.

Persons providing services on the project ("subcontractor" in §406.096) - includes all persons or entities performing all or part of the services the Construction Manager has undertaken to perform on the project, regardless of whether that person contracted directly with the Construction Manager and regardless of whether that person has employees. This includes, without limitation, independent contractors, subcontractors, Consultants, leasing companies, motor carriers, owner-operators, employees of any such entity, or employees of any entity which furnishes persons to provide services on the project. "Services" include, without limitation, providing, hauling, or delivering equipment or materials, or providing labor, transportation, or other service related to a project. "Services" does not include activities unrelated to the project, such as food/beverage vendors, office supply deliveries, and delivery of portable toilets.

B. The Construction Manager shall provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all employees of the Construction Manager providing services on the project, for the duration of the project.

C. The Construction Manager must provide a certificate of coverage to the governmental entity prior to being awarded the contract.

D. If the coverage period shown on the Construction Manager's current certificate of coverage ends during the duration of the project, the Construction Manager must, prior to the end of the coverage period, file a new certificate of coverage with the governmental entity showing that coverage has been extended.

E. The Construction Manager shall obtain from each person providing services on a project, and provide to the governmental entity:

F. The Construction Manager shall retain all required certificates of coverage for the duration of the project and for one year thereafter.

G. The Construction Manager shall notify the governmental entity in writing by certified mail or personal delivery, within 10 days after the Construction Manager knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project.

H. The Construction Manager shall post on each project site a notice, in the text, form and manner prescribed by the Division of Workers' Compensation informing all

persons providing services on the project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.

I. The Construction Manager shall contractually require each person with whom it contracts to provide services on a project, to:

(1) provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the project, for the duration of the project;

(b) a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the project;

(5) retain all required certificates of coverage on file for the duration of the project and for one year thereafter;

(6) notify the governmental entity in writing by certified mail or personal delivery, within 10 days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project; and

(7) contractually require each person with whom it contracts, to perform as required by paragraphs (1) - (7), with the certificates of coverage to be provided to the person for whom they are providing services.

J. By signing this contract or providing or causing to be provided a certificate of coverage, the Construction Manager is representing to the governmental entity that all employees of the Construction Manager who will provide services on the project will be covered by workers' compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-

insured, with the division. Providing false or misleading information may subject the Construction Manager to administrative penalties, criminal penalties, civil penalties, or other civil actions.

K. The Construction Manager's failure to comply with any of these provisions is a breach of contract by the Construction Manager which entitles the governmental entity to declare the contract void if the Construction Manager does not remedy the breach within ten days after receipt of notice of breach from the governmental entity.

3. **Commercial General Liability**. - Other property for which an insured is liable in connection with the Project, including Owner furnished or assigned property.

.1 For renovation projects or projects that involve portions of Work contained within an existing structure, the policy must also include coverage in the additional sum of $1,000,000.00, or the value of the Final Guaranteed Maximum Price, whichever is less. These policy limits are in addition to the Builder's Risk policy limit that is equal to the Final Guaranteed Maximum Price for Existing Property and Owner-furnished items, if any, specified by Owner. For purposes herein, "Existing Property" means existing buildings or structures, as well as, all personal property contained therein, but does not include personal property owned or operated by Construction Manager or any Subcontractors.

.2 For Owner-furnished items or materials that will be in care, custody or control of Construction Manager, Construction Manager shall be responsible for any and all damages and losses thereto.

.3 **Sublimits**. For those properties located within a Tier 1 or 2 windstorm area, named storm coverage must be provided with limits as specified by Owner. For those properties in flood prone areas, floor insurance coverage must be provided with limits specified by Owner. Owner may specify additional sublimits applicable to the Project in the Owner's Special Conditions set forth in **Exhibit C**.

.4 The policy shall include the following endorsements:

i. Builder's Risk insurance shall be specific as to coverage and not contributing insurance with any permanent insurance maintained on the property;

ii. The policy shall not contain an occupancy clause suspending or reducing coverage should Owner partially occupy the site and before the parties have determined Substantial Completion; and

iii. Valuation of any loss for the renovation and any existing property (exclusive of building and existing structures) shall be at replacement cost.

.5 **Deductibles**. Deductibles shall not exceed the following:

i. All risks of direct damage, $25,000 per occurrence.

ii. Delayed Opening Waiting Period: 5 Days.

iii. Earthquake and Earthquake Sprinkler Leakage, $100,000 per occurrence.

iv. Flood. The deductible per occurrence shall be 5% of the value-at-risk-at-time-of-loss ("VARTOL") with a minimum VARTOL of $250,000. If flood insurance is purchased through National Flood Insurance Program, the deductible shall be the maximum amount of insurance purchased thereunder.

.6 The Builder's Risk policy shall remain in effect until the time Owner has approved the transfer of the risk of loss from the Project.

.7 Additional requirements may be specified by Owner.

11. Insurance Required of Subcontractors. Each Subcontractor must provide all coverages identified above with limits as set forth in Paragraph 1 above. The limits of such insurance may be adjusted in

accordance with the nature of each Subcontractor's operations but, if such adjustment is requested, it must be submitted to Owner for approval before the Subcontractor enters into an agreement or any Work commences under the agreement in question.

12. **Inclusion of Insurance Information in Bid Packages**. Construction Manager shall include required insurance information in trade bid/proposal packages and indicate on bid/proposal forms the insurance that bidders/proposers are to include in their responses. The Construction Manager shall not commence any phase of the Work under this Agreement until it has obtained all insurance required for that phase and until evidence of the required insurance has been reviewed and approved by the Owner. Owner's review and approval of the insurance shall not affect the liability of either party.

13. **General Terms for All Insurance Policies**. All insurance coverages must be placed with carriers acceptable to Owner, licensed to do business in Texas and rated A-/VII or better by A.M. Best, confirmed by one or more insurance certificates on an Acord 25 form, with all information fully provided as required by the form. All insurance coverages shall be written on an occurrence basis (except Professional Liability) and shall be primary and not excess insurance vis-à-vis any coverage, any self-insurance, or other policy of insurance maintained by Owner. Any coverage underwritten on a claims-made basis must include a retroactive date for the policy and all renewals must be coincident with the effective date of the Agreement. Any premiums for this extended reporting period shall be paid by Construction Manager. Certificates of insurance and additional insured endorsements required herein shall provide that the policies shall be primary without right of contribution from any insurance carried by Owner. Each policy, other than Worker's Compensation/Employer's Liability and Professional Liability, shall contain a severability of interest clause stating *"it is agreed that the insurance afforded by this policy shall apply separately to each insured against whom claim is made or suit is brought except with respect to the limits of the company's liability."* Each policy shall provide for full separation of insureds and include no insured v. insured limitations or exclusions.

14. **Additional Insured Status**. Owner and Indemnitees (as defined in the Agreement) and their officers, directors, agents, and employees shall be included as additional insureds on policies procured by Construction Manager and all Subcontractors, except Worker's Compensation and Professional Liability, using ISO Additional Insured Endorsements CG 20 10 10 01 (ongoing operations) and CG 20 37 10 01 (Completed Operations) or their equivalent, as approved by Owner. Insured requirements for the Builder's Risk coverage are contained in Paragraph 10 above wherein Owner and the Indemnitees shall be listed as insureds and loss payees. Construction Manager and all Subcontractors shall provide additional insured endorsements demonstrating the insured status of Owner and the Indemnitees as provided herein on such forms as required by Owner.

15. **Waivers of Subrogation**. All Worker's Compensation, Employers' Liability, Automobile Liability, Commercial General Liability, Excess Liability, Builder's Risk, and Pollution Liability insurance policies (including those procured by Subcontractors) must contain an endorsement to the effect that the issuer waives any claim or right of subrogation to recover against Owner and Indemnitees and their officers, directors, agents, and employees. With respect to all such policies, Construction Manager waives any and all rights of recovery or subrogation against Owner and its Indemnitees and their officers, directors, agents, and employees.

16. **Evidence/Proof of Insurance/Endorsements**. Evidence of the insurance coverage required of the Construction Manager must be furnished to Owner before commencement of the Work (or, with respect to Subcontractors, before such entity begins its portion of the Work) and as coverage renews. Evidence of coverages shall be provided in certificates of insurance with a copy of the Commercial General Liability policies and all endorsements. The insurance policies shall provide or be endorsed to include a requirement for each insurer to give Owner notice at least **thirty (30)** Days prior to any (i) non-renewal; (ii) cancellation;

or (iii) material change. "Material Change" includes, without limitation (i) a change in the policy period; (ii) a material revision to, or removal of, a coverage section; (iii) a reduction of the amount of limits of insurance, provided such reduction is not the result of payment of damages, medical expenses, or claim expenses; or (iv) an increase of the amount of any self-insured retentions. Similarly, the Commercial General Liability policy shall be endorsed to include a **ten (10)-**Day Notice of Non-Payment of Premium in favor of Owner.

17. **Notification to Owner**. Any and all policies, endorsements, approvals, certificates of insurance and/or notifications of cancellation, non-renewal, or material change shall be transmitted to:

18. **Deductibles, Retentions & Exclusions**. Insurance deductibles shall be paid by Construction Manager or Subcontractors without reimbursement by Owner. Any under-insurance, self-insurance, self-insured retentions (SIR), deductibles, and exclusions in coverage in the insurance policies required under this agreement to the extent applicable, shall be assumed by, for the account of and at the sole risk of Construction Manager and Subcontractors. All deductibles and self-insured retentions shall be disclosed to Owner before the placement of any insurance or commencement of the Work under the Agreement.

19. If Construction Manager elects to self-insure or to maintain insurance required herein subject to deductibles and/or retentions exceeding the foregoing deductible amounts, Construction Manager shall be obligated to grant Owner all rights against Construction Manager to the same extent as if Construction Manager had maintained the insurance required hereunder with a commercial insurer, including but not limited to additional insured status (as to liability policies other than Workers' Compensation Insurance and Professional Liability Insurance), primary and non-contributory liability, waivers of rights of recovery, other insurance clauses, and any other extensions of coverage required herein. Construction Manager shall pay from its assets the costs, expenses, damages, claims, losses and liabilities, including attorney's fees and necessary litigation expenses at least to the same extent all of the foregoing would have been covered had Construction Manager maintained the insurance required hereunder with a commercial insurer.

20. **Construction Manager's Duty to Review**. Construction Manager represents and acknowledges it has carefully reviewed its insurance program with its legal and risk advisors and believes its insurance policies comply with the insurance requirements in this Agreement, and further acknowledges a continuing obligation to ensure its insurance policies remain compliant herewith. Within 48 hours of a written request by Owner, Construction Manager shall submit true and complete copies of Construction Manager's policies of insurance in electronic form by emailing true and complete of such policies to Owner's insurance analyst. The true and complete copies of all applicable insurance policies shall be submitted in a timely manner, as no contract will be executed without the receipt, review, negotiation, and Owner acceptance, of the submitted policies. The policies shall include therewith a letter provided by Construction Manager's broker, agent, or its applicable insurance carrier representative for each policy, certifying that the electronic copies of the policies as furnished are true and correct copies. In addition, upon conducting such review, if Owner's insurance analyst determines Construction Manager's insurance policies contain deficiencies that cause such policies to fail to comply with the insurance requirements of this Agreement, Construction Manager agrees to reimburse Owner for all costs and fees incurred in attempting to resolve such policy deficiencies by modification or special endorsement thereof. Construction Manager shall not cause or permit any required insurance to cancel or lapse prior to the expiration of all warranty periods, provided however, policy duration for Builder's Risk (or as applicable, an installation floater) is not governed by this provision. Construction Manager must update all expired policies prior to submission of any pay application.

21. **Right to Review**. Owner reserves the right to review all insurance requirements and to require deletion, revision, and/or modification of particular policy terms, conditions, limitations, or exclusions (except where policy provisions are established by law or regulations that are binding upon Owner, Construction Manager, or the underwriter) on any such policies when deemed necessary and prudent by Owner based upon changes in statutory law, court decisions, or the claims history of the industry and/or of Construction Manager, provided however, such modifications must be commercially available to Construction Manager. Owner shall make an equitable adjustment to the Final Guaranteed Maximum Price for any additional cost resulting therefrom.

22. **Failure to Obtain or Maintain**. Failure to timely obtain and maintain the insurance coverages as required under this Agreement may subject Construction Manager to disqualification from eligibility to participate in any other or future projects with Owner and/or suspension or termination of Work for cause pursuant to the Contract Documents. Construction Manager shall provide Owner **thirty (30)** Days' written notice of erosion of any aggregate limits below the minimum amounts required by this Agreement. In the event Construction Manager fails to timely renew or pay any of the renewal premiums for any expiring policies, Owner shall have the right (but not the obligation) to: (i) make such payments; and/or (ii) acquire replacement coverage, and set off the amount(s) or costs thereof against the next payment(s) coming due to Construction Manager under this Agreement or under any other contract between Owner and Construction Manager. Owner may withhold any payments due to Construction Manager from this Project or any other Owner project until satisfaction is achieved.

23. **Enforceability of Requirements**. None of the requirements contained herein as to types, limits, or Owner's approval of insurance coverage to be maintained by Construction Manager or any Subcontractor is intended to and shall not in any manner limit, qualify, or quantify the liabilities and obligations assumed by Construction Manager under the Agreement or otherwise provided by law. All insurance coverages required by the Agreement, as amended by Owner, shall be written in strict conformance with these requirements to provide complete and full coverage to Owner for Construction Manager's and Subcontractors' operations and completed operations. If coverages and/or specified endorsements are not available due to a change in Texas law, Construction Manager shall secure equivalent coverages, which shall be subject to approval by Owner. To the extent any provision of these insurance requirements is held

to be void, voidable, invalid, or unenforceable, the remainder of these insurance requirements shall not be affected thereby and shall remain valid and fully enforceable.

24. **Losses Paid by Construction Manager**. Actual losses not covered by insurance as required by this Agreement shall be paid by Construction Manager. Construction Manager hereby waives all rights of recovery and releases, and shall cause all Subcontractors to release Owner from any and all claims or causes of action whatsoever which Construction Manager and/or Subcontractors might otherwise now or hereafter possess resulting in or from or in any way connected with any loss covered by insurance, whether required herein or not, or which should have been covered by insurance required herein, including the deductible and/or uninsured portion thereof, maintained and/or required to be maintained by Construction Manager or Subcontractors pursuant to the Agreement.

25. **Owner a Third-Party Beneficiary**. It is hereby acknowledged and agreed that, based on the Agreement into which this **Exhibit B** is incorporated, Owner is intended to be and hereby is a third-party beneficiary of any agreement(s) between Construction Manager and any and all Subcontractors and persons who procure, or cause to be procured any insurance policy and any renewals thereof, for the Project.

26. **Required Insurance Coverages No Effect On Indemnification**. The insurance and insurance limits required herein shall not be deemed as a limitation on Construction Manager's liability under the indemnifications granted to Owner.

27. **No Warranty That Insurance Limits Will Be Adequate to Fully Protect Construction Manager**. The insurance requirements set out herein shall not be interpreted as any representation or warranty that the insurance coverage and limits will necessarily be adequate to fully protect Construction Manager.

B. BONDING REQUIREMENTS

1. **Security/Bid Bond**. Construction Manager shall provide a Security Bond/Bid Bond on the form provided by Owner in **Exhibit B-3** in the amount of **five percent (5%)** of the Owner's budget for the Project. The surety for a Security Bond shall meet the same requirements as set forth for payment and performance bonds. The Security/Bid Bond will be issued for a period not to exceed six (6) months and will be automatically renewed unless cancelled by written notice to Construction Manager and Owner, received by Owner within **sixty (60)** Days prior to the applicable expiration date. If the Bid Bond is cancelled, Construction Manager shall replace the Bid Bond, or provide other financial security under terms substantially the same as the Bid Bond and otherwise acceptable to Owner, in Owner's sole discretion, within **thirty (30)** Days of Owner's receipt of the surety's notice of cancellation, failing which, Construction Manager shall be deemed to be in default of its obligations under and to have committed a material breach of this Agreement and Owner may proceed in accordance with the provisions of the Contract Documents, and/or be entitled to enforce any other remedy or right the Owner may have hereunder.

2. **Performance and Payment Bonds**. Construction Manager shall provide Performance and Payment Bonds, each with penal sums in the amount of one hundred percent (100%) of the value of the Final Guaranteed Maximum Price upon Owner's execution of the Agreement, unless it has not been established at the time the Agreement is executed and then in conformance with the amount equal to the construction budget specified in the RFQ/RFP, in accordance with the requirements of *Tex. Gov't. Code § 2269.258* and *§ 2253.001 et seq.*, and in such form attached hereto as **Exhibit B-1**, and **Exhibit B-2**, respectively. No Notice to Proceed shall be issued until the bonds are received and approved by Owner. At all times, Construction Manager's Performance and Payment Bonds will cover the approved Work Package amounts and the Final Guaranteed Maximum Price as set forth in the Final Guaranteed Maximum Price Amendment. To the extent a Work Package is issued under Section 3.3 of the Agreement, and

Construction Manager has not provided a performance and payment bond under *Tex. Gov't. Code § 2269.258*, Payment and Performance bonds with penal sums equal to the authorized dollar amount of the Work Package Authorization shall be provided. Without limiting any other requirements or obligations of the surety, the Performance Bond shall cover Construction Manager's warranty obligations for a period not less than two (2) years from the date of the issuance of the Certificate of Substantial Completion, and shall include coverage for any liquidated damages for which Construction Manager may be liable under this Agreement.

3. In addition to the above requirements, all bonds shall be issued with the Owner as the named obligee and shall be executed by a corporate surety company authorized to do business in the State of Texas and which shall hold a certificate of authority from the United States Department of Treasury to qualify as a surety on obligations permitted or required under federal law. All bonds shall have a Power of Attorney attached. Performance and Payment bonds shall be provided before any Work is performed.

4. Costs, premiums or other charges for or relating to Subcontractor bonds and/or Subcontractor default insurance are not reimbursable as Costs of the Work or as General Conditions Costs and will not be reimbursed.

1.2.3 Information relating to Owner's proprietary rights prior to any public disclosure thereof, including but not limited to, the nature of the proprietary rights, production data, technical and engineering data, test data and test results, the status and details of research and development of products and services, and information regarding acquiring, protecting, enforcing and licensing proprietary rights (including patents, copyrights, and trade secrets).

1.3 Covenants. As a consequence of Construction Manager's acquisition or anticipated acquisition of Confidential Information, Construction Manager will occupy a position of trust and confidence to Owner with respect to Owner's affairs and business. In view of the foregoing and of the mutual consideration to be provided to each party, Construction Manager agrees that it is reasonable and necessary that it make the following covenants:

1.3.1 Both during and forever after the performance of any due diligence investigation, Construction Manager will not disclose Confidential Information to any person or entity other than as necessary in carrying out its duties on behalf of Owner and/or due diligence investigation, without first obtaining Owner's prior, written consent, and Construction Manager will take all reasonable precautions to prevent inadvertent disclosure of such Confidential Information. This prohibition against Construction Manager's disclosure of Confidential Information includes, but is not limited to, disclosing the fact that any similarity exists between the Confidential Information and information independently developed by another person or entity, and Construction Manager understands that such similarity does not excuse Construction Manager from abiding by its covenant or other obligations pursuant to the Agreement.

1.7 Public Records. Notwithstanding any provisions of the Agreement to the contrary, Construction Manager understands that Owner will comply with the Texas Public Information Act, Tex. Gov't. Code Ch. 552. If contacted by Owner, Construction Manager will cooperate with Owner in the production of documents responsive to the request. Construction Manager agrees to provide the documents responsive to the request in the format and within the time frame specified by Owner. Construction Manager may request that Owner seek an opinion from the Office of the Attorney General of Texas. However, the final decision whether to seek a ruling from the Office of the Attorney General of Texas will be made by Owner in its sole discretion to comply with the legal requirements of the Texas Public Information Act. Additionally, Construction Manager will notify Owner's general counsel within twenty-four (24) hours of receipt of any third-party requests for information written, produced, collected, assembled, or maintained in connection with the Agreement and/or any amendment to the Agreement. The Agreement and/or any amendment to the Agreement and all data and other information generated or otherwise obtained in its performance is subject to the Texas Public Information Act. Construction Manager agrees to maintain the confidentiality of information received from Owner during the performance of the Agreement, including information which discloses confidential personal information particularly, but not limited to, social security numbers. Furthermore, Construction Manager is required to make any information created or exchanged with the State pursuant to the Agreement, and not otherwise excepted from disclosure under the Texas Public Information Act, available in a format that is accessible by the public as specified by Owner at no additional charge to the Owner.

2. Suspension and Debarment. Construction Manager, on behalf of itself and its employees, agents, representatives, and Subcontractors, represents that as of the date of, and at all times during the term of, the Agreement, the following shall be true, complete, and correct:

2.1 Construction Manager is in compliance or will comply with, to the extent applicable, Owner's compliance program and all applicable federal and state laws and regulations therein, including, but not limited to, federal and state healthcare fraud and abuse provisions;

2.2 Construction Manager is not a target or subject of a federal or state criminal, civil, or administrative investigation;

2.5 Construction Manager is not, and has not previously been, excluded, debarred, suspended, or otherwise deemed ineligible from participating in any federal or state healthcare program or other federal or state program.

During the term of the Agreement, Construction Manager shall immediately give Owner written notice if Construction Manager is not in compliance with any provision of this Section 2. Upon the occurrence of

such event, whether or not notice is given to Owner, Owner may terminate the Agreement effective immediately upon written notice to Construction Manager.

3. Historically Underutilized Businesses. Construction Manager will proactively comply with Owner's established policies regarding the utilization of S/W/MBE/HUB entities and goals, and all other applicable administrative rules and statutes relating to utilization of S/W/MBE/HUB entities for the Project.

4. Equal Opportunity. Construction Manager shall not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin. Construction Manager shall take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, national origin, age, disability, political affiliation, or religious belief. Such action shall include, but not be limited to, the following: (i) employment, upgrading, demotion, or transfer; (ii) recruitment or recruitment advertising; (iii) layoff or termination; (iv) rates of pay or other forms of compensation; and (v) selection for training, including apprenticeship. Construction Manager shall post in conspicuous places, available to employees or applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination Section. Construction Manager shall include this Section in all subcontract agreements pertaining to the services to be provided under the Agreement.

5. Nondiscrimination. In their execution of the Agreement, the parties and others acting by or through them shall comply with all federal and state laws prohibiting discrimination, harassment, and sexual misconduct. To the extent not in conflict with federal or state law, the parties agree not to discriminate on the basis of race, color, national origin, age, sex, religion, disability, veterans' status, sexual orientation, gender identity or gender expression. Any breach of this covenant may result in termination of the Agreement.

6. Immigration Reform. The Immigration Reform and Control Act of 1986, as amended, the Immigration Act of 1990, and the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, require that all employees hired since 1986 provide proof of identity and employment eligibility before they can work in the United States. Owner is committed to complying with all applicable immigration laws of the United States and requires compliance by all contractors, subcontractors, and consultants who contract with the Owner. Construction Manager shall not place any employee of Construction Manager at a worksite, nor shall Construction Manager permit any employee, nor any Subcontractor, to perform any work on behalf of, or for the benefit of, Owner without first confirming said employee's authorization to lawfully work in the United States. Construction Manager states that Construction Manager: (i) maintains and follows an established policy to verify the employment authorization of its employees and to ensure continued compliance for the duration of employment; (ii) has verified the identity and employment eligibility of all employees in compliance with Applicable Law; (iii) has established internal safeguards and reporting policies to encourage its employees to report any suspected violations of immigration policies or of immigration law promptly to Construction Manager's senior management; and (iv) is without knowledge of any fact that would render any employee or any Subcontractor ineligible to legally work in the United States. Construction Manager further acknowledges, agrees, and states that it: (i) has complied, and shall at all times during the term of the Agreement comply, in all respects with the Immigration Reform and Control Act of 1986 and 1990, the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, as amended, and all of the laws, rules, and regulations relating thereto; (ii) has properly maintained, and shall at all times during the term of the Agreement properly maintain, all records required by the Department of Homeland Security, Immigration and Customs Enforcement, including, without limitation, the completion and maintenance of the Form I-9 for each of Construction Manager's employees; and (iii) has responded, and shall at all times during the term of the Agreement respond, in a timely fashion to any inspection requests related to such I-9 Forms. During the term of the Agreement, Construction Manager

General:

1. This IGMP Amendment provides for a partial Project scope related to mobilization efforts, demolition of the existing garage, abatement, and purchase of major mechanical and electrical equipment.

3. The major equipment list dated May 22, 2025, is included in the IGMP. The updated narrative and equipment list received June 23, 2025, indicated increased equipment sizes but could not be priced by submission of this IGMP. Construction Manager has included an additional contingency to cover the increased sizes.
4. This IGMP is based on a Notice to Proceed of September 16, 2025.
5. Construction start is subject to approval of all applicable permits from all authorities having jurisdiction so that construction can commence and proceed without interruption. Construction Manager has assumed Owner will apply for all applicable permits. Construction Manager will file State 10-day Demolition notice upon receipt of Notice to Proceed or as applicable.
6. This IGMP includes a 4% Construction Contingency and 5% Design Contingency.

11. The IGMP does not include any sales taxes on incorporated materials. Owner to provide Texas Sales and Use Tax Exemption Certificate.
12. This IGMP is based on the Owner providing clear access to the site during construction operations.
13. This IGMP is based on a phased approach with demolition work stopping to allow ONCOR to complete the Owner electrical reroute and allow the ductbank under the garage to be removed. ONCOR's work opportunity is limited to 40 working days and any delay in releasing the duct bank for demolition will be additional cost and time.
14. Construction Manager has included fencing the perimeter of the site necessary for the demolition of the garage. Construction Manager has not included any relocation that will be necessary later in the Project to allow the hospital scope of work to be completed.

TARRANT COUNTY
COMMISSIONERS COURT COMMUNICATION

Department: Human Resources **Prepared By:** Glorimar Lugo Ortiz **Approved By:** Roxie Held

SUBJECT:

Consideration of Plan Choices, Service Provider Selections, and the Contribution Rates for Funding Employee and Retiree Healthcare Benefits in Plan Year 2026

*****CONSENT AGENDA *****

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider approval of the proposed employee and retiree healthcare funding structure for Plan Year 2026. This includes the medical contribution rates for employees and retirees, along with the related plan funding provisions as recommended by the Public Employee Benefits Cooperative (PEBC) and Holmes Murphy & Associates.

BACKGROUND

The Public Employee Benefits Cooperative (PEBC) Board of Governance has finalized plan choices and service provider selections for Plan Year 2026 and forwards them to Commissioners Court for consideration. Under this structure, Blue Cross Blue Shield of Texas (BCBSTX) will continue to administer Medical, Pharmacy, the Employee Assistance Program (EAP), Health Savings Accounts (HSA), Flexible Spending Accounts (FSA), COBRA, and Retiree Direct Billing. Beginning in 2026, The Standard will assume responsibility for Group Term Life Insurance and will also administer voluntary benefit programs such as Short-Term Disability, Critical Illness, Accident Insurance, and Hospital Indemnity. Delta Dental and VSP will remain the providers for dental and vision coverage.

The packet provided to the Court contains multiple exhibits to guide review. Exhibit A presents a summary of recommendations for Plan Year 2026. Exhibit B outlines service provider fees as approved by the PEBC Board. Exhibits C-1 through C-4 include the proposed medical contribution rates for active employees, pre-65 retirees, post-65 retirees, and retirees with non-Medicare dependents. Exhibit C-5 provides dental and vision rates, which remain largely unchanged apart from a modest increase to the PPO dental plan. Section VI of the packet addresses employer contribution levels, including flex contributions, HSA seed amounts, and wellness rewards.

In summary, the action items before the Commissioners Court relate to approval of the medical plan rates, the County's funding contributions for active employees, and other associated funding provisions for Plan Year 2026. All other plan design changes, vendor transitions, and ancillary benefits have already been reviewed and approved by the PEBC Board and are included here for transparency. These recommendations were developed in consultation with the PEBC Board of Governance, Holmes Murphy & Associates, and the County Budget Office to ensure alignment with funding requirements, long-term sustainability, and affordability for employees and retirees.

The Annual Enrollment Period is scheduled for November 3–14, 2025. Retirees will enroll online through the County's new paperless enrollment platform. Active employees will continue to use SAP for this year's enrollment and will transition fully to the new Selerix system in the following enrollment cycle. Communications and detailed instructions on how to enroll will be provided to retirees in advance of the Annual Enrollment Period. Full details for employees will be communicated and posted on the County's Loop intranet site prior to enrollment.

FISCAL IMPACT

Plan costs for employee and retiree healthcare benefits are accounted for in the benefits budget established for Plan Year 2026.

The surcharge also applies if an employee fails to submit the Spouse Medical Plan Surcharge affidavit during Annual Enrollment.	200.00	**TBD**

Active Employee Medical Monthly Contribution Rates

For Plan Year 2026, the proposed active employee medical contribution rates reflect both market conditions and the County's ongoing commitment to provide affordable health coverage. The High-Deductible Health Plan (HDP/HSA) will return to the same employee monthly contribution rates last used in 2024, preserving a low-cost option for employees while maintaining the County's Health Savings Account seed contributions of $900 for Employee Only coverage and $950 for Family coverage. The PPO Medical Plan will increase by approximately 10% to reflect projected claim costs and ensure sustainability of the plan.

It is important to note that for Plan Year 2025, employee medical contribution rates were lowered because reserves and claims experience allowed the County to provide temporary rate relief. The 2026 rates represent a return to sustainable levels following that one-year reduction.

As of September 1, 2025, a total of 3,788 active employees are covered under County medical plans, with 403 employees opting out. These contribution adjustments balance employee affordability with the fiscal responsibility of managing long-term healthcare costs.

Self-Funded PPO and HDHP Retiree Rates

Pre-65 Retiree (Not Medicare Eligible)

It is recommended that Commissioners Court approve the proposed 2026 contribution rates for Pre-65 retirees. These rates are calculated by applying a 10% increase to the 2025 total monthly rates. Retirees with less than 10 years of service will pay the full 2026 total rate, while those with 10 or more years of service continue to share costs with the County according to service-based subsidy levels. As of September 1, 2025, there are 383 Pre-65 retirees, with 22 enrolled in the HDHP and 361 enrolled in the PPO.

Medicare Advantage PPO and HMO Retiree Rates

Medicare Eligible Retirees

This exhibit reflects Medicare Advantage retiree rates. Both the PPO and HMO retiree-only rates remain unchanged for 2026. As of September 1, 2025, there are 710 retirees enrolled in these plans. Of this total, 610 retirees are enrolled in the Medicare Advantage PPO, while 100 retirees are enrolled in the Medicare Advantage HMO.

Years of Service (YOS)	Coverage Level	Retiree Share 2025	County Share 2025	Total 2025 Rate	Retiree Share 2026	County Share 2026	Total 2026 Rate

More than 10 YOS	Retiree Only (PPO)	$135.00	$125.00	$260.00	$135.00	$125.00	$260.00
Less than 10 YOS	Retiree Only (HMO)	$160.00	$0	$160.00	$160.00	$0	$160.00
More than 10 YOS	Retiree Only (HMO)	$71.50	$88.50	$160.00	$71.50	$88.50	$160.00

Note: If a retiree covers more than one Medicare-eligible dependent (spouse and/or child), the rate is a multiple of the retiree-only premium. For example, a retiree + Medicare spouse is 2x the retiree-only rate, and retiree + Medicare spouse + Medicare child is 3x.

In addition to the rates listed above, retirees are responsible for the Medicare Part B premium (rate is not finalized for 2026). The retiree pays the Part B premium directly to Medicare.

The following exhibit provides details for retirees who do cover non-Medicare dependents on the County's self-funded PPO plan, where costs increase in alignment with the under-65 PPO adjustments.

Medicare Advantage Retirees with Non-Medicare Dependents

This group reflects retirees enrolled in the Medicare Advantage PPO or HMO plans who cover non-Medicare eligible dependents on the County's self-funded PPO plan. While the Medicare Advantage retiree premium itself is unchanged, retirees in this category will have an increase when covering a non-Medicare dependent. This exhibit is provided to ensure transparency on how the Pre-65 rate adjustments (Exhibit C-3) flow through to these retirees.

These rates move with and is subject to approval under Exhibit C-2.

As of September 1, 2025, there are 34 retirees enrolled in these plans. Of this total, 33 retirees are enrolled in the Medicare Advantage PPO with PPO-covered dependents, while 1 retiree is enrolled in the Medicare Advantage HMO with PPO-covered dependents.

Group Life and AD&D Insurance

Line of Duty Benefit

Helping Protect Those Who Protect and Serve

On a daily basis, firefighters and police officers put their lives on the line to keep our homes and communities safe and secure. To help protect them and their families from a financial loss after a covered line of duty accident, Standard Insurance Company (The Standard) offers an optional Line of Duty Benefit to public employer groups with Group Life and AD&D insurance, who cover employees meeting the group policy's definition of a public safety officer.

This optional benefit provides public safety officers an additional $50,000 or 100 percent of the AD&D insurance benefit, whichever is less, when suffering a loss for which an AD&D insurance benefit is payable and which is the result of a line of duty accident.

Public safety officers include police officers, firefighters, corrections officers, judicial officers and officially recognized or designated volunteer firefighters meeting the definition of a public safety officer.

In the Line of Duty: The Stories Behind the Numbers

Two examples* of how the Line of Duty Benefit can help:

While on duty, a firefighter insured for $100,000 of Life and AD&D insurance coverage responds to a building fire. A gas leak occurs, causing an explosion that results in the firefighter's death. In this example, the firefighter's beneficiaries may be eligible to receive the following: Life benefit of $100,000 and AD&D benefit of $100,000, plus a $50,000 Line of Duty Benefit for a total payment of $250,000.

While on duty, a police officer insured for $100,000 of Life and AD&D insurance coverage is involved in a high-speed chase that ends in a collision, resulting in the loss of sight in one of his eyes. In this example, the police officer may be eligible to receive the following: An AD&D benefit of $50,000, as the policy pays 50 percent of the AD&D benefit for loss of the sight of one eye, plus a $50,000 Line of Duty Benefit for a total payment of $100,000.

With the Line of Duty Benefit from The Standard, public employer groups can help provide financial protection to public safety officers who have dedicated their lives to protect and serve.

COMMISSIONERS COURT COMMUNICATION

Department: Information Technology **Prepared By:** Bethany Sanchez Vazquez **Approved By:** Andre Mendes

SUBJECT:

Consideration the Justice of the Peace Courts eNotifications Statement of Work between Tarrant County and eCourtDate, Inc.

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court consider a Statement of Work (SOW) to implement automatic archiving of electronic notifications for the eight (8) Justice of the Peace (JP) Courts in the Tyler Technologies' Odyssey Case Management Systems (CMS).

BACKGROUND

On September 17, 2024, the Commissioners Court, through Court Order #143901, approved Tarrant County's participation in the Texas Office of Court Administration (OCA) Court Reminders Program. This program, established under HB4293 of the 87th Texas Legislature and funded by the OCA, provides designated electronic notification messaging services to Tarrant County at no cost.

The request at this time is for approval of the SOW associated with developing a bi-directional integration between eCourtDate and the Odyssey CMS. This integration will allow electronic notifications for the eight JP Courts to be automatically archived, removing the need for Justice Court Clerks to manually send notices through Odyssey or Microsoft Outlook. The implementation is designed to simplify processes, reduce clerical workload, and enhance overall operational efficiency.

FISCAL IMPACT

The milestone payment schedule is delineated on Page 4 of the SOW. Funding in the amount of $66,500.00 has been requested in 22700-2026 Justice Court Technology/1810220000 IT Project Portfolio Management/540000 Capital.

Justice of the Peace Courts eNotifications
Statement of Work & Service Plan Agreement

Project Overview

This document outlines the implementation plan for the electronic notification system across all eight Justice of the Peace (JP) Courts in Tarrant County. This initiative, facilitated by eCourtDate, aligns with the requirements of House Bill 4293 (HB4293) of the 87th Texas Legislature. Participation in the Texas Office of Court Administration (OCA) program, which provides notifications funding, was officially approved by the Tarrant County Commissioners Court on September 17, 2024.

eCourtDate assumes full responsibility for the creation, transmission, and management of all electronic mail (email), Short Message Service (SMS) communications, and printed notices. All such communications originate from a Criminal Justice Information Services (CJIS)-compliant environment, ensuring the utmost security and adherence to established criminal justice information standards.

Upon successful dispatch, each finalized notification will be automatically archived within Tyler Technologies' Odyssey Case Management System (ODY) via a direct Application Programming Interface (API) connection. The development of this critical integration, along with its associated annual support fees, is not covered by the OCA program and is therefore detailed within this Statement of Work (SOW). This seamless integration will eliminate the need for Tarrant County Clerks to manually send notices through ODY or Microsoft Outlook, significantly enhancing operational efficiency.

Changes are deployed to production monthly.
Unplanned Downtime and Outages	Unplanned downtime and outages are rare, but if they occur, the impact should be limited to a subset of functionality. Our engineering team will actively work to resolve the issue. Any known issues are communicated via email, in-app, and on our Status Page.
Browser Compatibility	We support the current and the two most recent versions of Chrome, Firefox, Safari, and Edge. We do not support Internet Explorer.
System Capacity	Our system is designed to scale horizontally and vertically to handle increased load. We monitor system capacity and performance and will notify the Customer if additional capacity is needed. By default, each agency is able to send 60 outbound SMS/MMS, 60 outbound voice calls, and 60 outbound emails every minute. Messages are delayed to the next minute if the limit is reached. There is no limit for inbound messages on any channel. For dedicated or high-volume customers, we support the following limits to ensure compliance with carriers and internet service providers: • Outbound SMS: 4,500 per minute • Outbound MMS: 1,200 per minute • Outbound Calls: 300 per minute • Outbound Emails: 1,200 per minute
Downtime Credits	For Dedicated and high-volume customers, if we fail to meet our uptime guarantee, we will provide a discount on the monthly usage period based on the following schedule: • 98.5% - 99% uptime: 5% credit • 98.5% - 98% uptime: 10% credit • Less than 98% uptime: 15% credit Note: downtime is only calculated for our API and web platforms. Scheduled maintenance, third-party outages, and force majeure events are excluded.
Disaster Continuity	In the event of a complete system failure, we have a disaster recovery plan in place. We maintain a backup of all data and can restore service within 4 hours. We will notify the Customer of any catastrophic failure and provide updates on the recovery process. For downtime exceeding 4 hours, we offer a standalone service that can be used to send messages and notifications. This service is hosted on a separate infrastructure region and is designed to be used in the event of a catastrophic failure of our primary service.

Software Escrow	We offer a software escrow service for dedicated plans. The software escrow agreement is a separate contract and is subject to additional fees ($10,000.00 optional).

At the Customer's option and approval by the Company, the contract may be renewed for additional twelve (12) month periods. If the Customer exercises the right in writing, the Company must update and submit any documents required during the initial solicitation by no later than thirty (30) calendar days prior to the commencement of the option period.

Term of Service Plan. Any Service Plan created under this Agreement will commence upon the system going live and will continue thereafter as provided in the Service Plan; provided, however, that despite any other provision of this Agreement or in any Service Plan, all existing Service Plans will also terminate upon the expiration or termination of this Agreement.

Automatic Termination. Unless the Company promptly upon discovery of the relevant facts notifies the Customer to the contrary, in writing, this Agreement and all Service Plans will terminate immediately, without notice, upon the institution of insolvency, bankruptcy, or similar proceedings by or against the Company, any assignment or attempted assignment by the Company for the benefit of creditors, or any appointment, or application for such appointment, or a receiver for the Company.

Termination for Cause. If either Party fails to comply with any of the material terms and conditions of this Agreement or Service Plan including, but not limited to, the payment of any subscription fee or reimbursement due and payable to the Company under this Agreement, the non-defaulting Party may terminate this Agreement and/or all Service Plans upon thirty (30) days written notice to the defaulting Party specifying any such breach, unless within the period of such notice, all breaches specified have been remedied.

Effect of Termination. Upon any termination of this Agreement, the Customer will be denied access to the Portal. Termination will not relieve the Customer of its obligation to pay any undisputed fees accrued or payable to the Company prior to the effective date of termination. Customer is entitled to a prorated refund if this Agreement is

terminated as a result of Company's material breach of the Agreement. The payment of Customer obligations in fiscal years subsequent to the current year is contingent upon funds for this Agreement being appropriated and budgeted. If funds for this Agreement are not appropriated and budgeted in any year subsequent to the fiscal year of execution of this Agreement, this Customer shall terminate, without any penalty to Customer.

The contract may be terminated by either party upon written thirty (30) day notice prior to cancellation.

Termination by the Company for End of Life

The Company intends to continue to provide and support the Services for as long as the Customer renews in accordance with the applicable Service Plan; provided, however, if the Company determines, in its sole discretion, that it is no longer feasible to support the Services, the Company may terminate this Agreement for end-of-life at any time by providing six (6) months' written notice to the Customer. In the event of such termination, the Company shall reimburse, on a prorated basis, any subscription fees paid by the Customer.

Transition Services

If the Customer is current in all payments due to the Company at the time of expiration or termination of this Agreement, the Company shall provide to the Customer its Customer Data in a mutually agreed upon format at no additional charge. If the Customer requests the Customer Data in a non-standard format, the Customer shall pay the Company a reasonable fee for technical services as determined by the Company.

The Company will have exclusive ownership of all now known or later discovered rights to the Suggestions and will be entitled to unrestricted use of the Suggestions for any purpose whatsoever, commercial or otherwise, without compensation to the Customer.

Severability

If any part of this Agreement is held to be unenforceable for any reason, the remainder of this Agreement will continue in full force and effect. If any provision of this Agreement is deemed invalid or unenforceable by any court of competent jurisdiction, and if limiting such provisions would make the provision valid, then such provision will be deemed to be construed as so limited.

SUBJECT:

RFP No. F2025160 - Annual Contract for In-Car Mobile Data Computers - Sheriff's Office - GTS Technology Solutions, Inc. - Per Contract Terms

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court award RFP No. F2025160, Annual Contract for In-Car Mobile Data Computers, for the Sheriff's Office, to GTS Technology Solutions, Inc. at the per contract terms.

BACKGROUND

Notice of the County's intent to bid was advertised in local newspapers, as required by State statute, and posted on the Internet, the Arlington Black Chamber of Commerce, the Fort Worth Hispanic Chamber of Commerce, the Fort Worth Metropolitan Black Chamber of Commerce, and the Tarrant County Asian American Chamber of Commerce. One thousand forty-nine (1049) vendors were contacted and requested to participate in this proposal process. All documents pertaining to this RFP were posted on the Tarrant County website and were downloaded by interested parties. A pre-proposal conference held on May 27, 2025 was attended by three (3) vendors as well as representatives from the Sheriff's Office and Purchasing Four (4) proposals and nine (9) no-bids were received.

Proposals were evaluated by the Sheriff's Office and Purchasing representatives. Evaluations were based upon the criteria and processes set forth in the RFP specifications. New Tech Solutions, Inc. and Mega Wholesale LLC were deemed non-responsive for failure to submit all required information for evaluation including detail of past performance, implementation and imaging approach, and technical support and service terms. Rugged Notebooks (Rugged Solutions America) was not considered for award because they offered an older laptop processor which did not meet specifications.

A Best and Final Offer was then requested which resulted in no overall reduction in price.

The proposal received from GTS Technology Solutions, Inc. meets all specifications and is acceptable to Facilities Management.

The term of the contract is twelve (12) months, effective August 19, 2025 with one (1) renewal twelve month renewal option.

The initial purchase will be for approximately sixty-three (63) in-car mobile data computers (MDC's) for Sheriff patrol vehicles and warrant vans. Seven (7) units are for the outfitting of new warrant vans and the remaining fifty-six (56) are replacement units for MDC's that are end-of-life after May 30, 2025. Additional units will be purchased in FY2026 to refresh the remainder of the Sheriff's Office and Constable fleet.

Therefore, it is the joint recommendation of the Sheriff's Office and Purchasing that F2025160, Annual Contract for In-Car Mobile Data Computers, be awarded to GTS Technology Solutions, Inc. at the per contract terms.

FISCAL IMPACT

The department has included funding in the FY 2026 budget request.

Bid No. F2025209 - Purchase of Inseyets Online Pro and Unlimited Unlocks Subscription – District Attorney's Office – Concourse Tech Inc. - Per Unit Price

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court award Bid No. F2025209, Purchase of Inseyets Online Pro and Unlimited Unlocks Subscription, for the District Attorney's Office, to Concourse Tech Inc. at the per unit price.

BACKGROUND

Notice of the County's intent to bid was advertised in a local newspaper, as required by State statute, and posted on the Internet, the Arlington Black Chamber of Commerce, the Fort Worth Hispanic Chamber of Commerce, the Fort Worth Metropolitan Black Chamber of Commerce, and the Tarrant County Asian American Chamber of Commerce. Eight hundred sixty-two (862) vendors were contacted and requested to participate in this bid process. All documents pertaining to this bid were posted on the Tarrant County website and were downloaded by interested bidders. Nine (9) bids and five (5) no-bids were received.

The low bid received from Concourse Tech Inc. meets all specifications and is acceptable to the District Attorney's Office.

The term of the contract is twelve (12) months, effective September 27, 2025.

This purchase covers Inseyets Pro and Unlimited Unlocks Subscription, the upgraded replacement for the existing Cellebrite Premium. It is a forensic tool used by the Digital Forensics and Technical Services team of the District Attorney's Office to assist with criminal investigations that aids in bypassing locked and encrypted mobile devices using software algorithms. Cellebrite handles a large variety of devices that use both the Apple iOS and the Android operating systems typically found on Samsung, LG, Google Pixel, and Motorola systems. Cellebrite is updating their software system this year to retire UFED 4PC and replace it with Inseyets. The functionality of the software will remain intact.

Therefore, it is the joint recommendation of the District Attorney's Office and Purchasing that Bid No. F2025209, Purchase of Inseyets Online Pro and Unlimited Unlocks Subscription, be awarded to Concourse Tech Inc. at the per unit price.

SUBJECT:

RFP No. F2025188 - Annual Contract for Community Based Detention Services - Juvenile Services

COMMISSIONERS COURT ACTION REQUESTED

It is requested that the Commissioners Court reject all proposals for RFP No. F2025188, Annual Contract for Community Based Detention Services.

BACKGROUND

Notice of the County's intent to bid was advertised in local newspapers, as required by State statute, posted on the Internet, the Arlington Black Chamber of Commerce, the Fort Worth Hispanic Chamber of Commerce, the Fort Worth Metropolitan Black Chamber of Commerce, and the Tarrant County Asian American Chamber of Commerce. Eight hundred and forty-nine (849) vendors were contacted and requested to participate in this proposal process. All documents pertaining to this RFP were posted on the Tarrant County website and were downloaded by interested parties. Two (2) proposals and three (3) no-bids were received.

After review of the submitted proposals, Tarrant County Juvenile Services will not be moving forward with the Community-Based Detention contract. The department has determined it can effectively serve both pre- and post-adjudication youth pending court in the community through existing internal resources and alternative contracted programming.

Therefore, it is joint recommendation of Juvenile Services and Purchasing that the Commissioners Court reject all proposals received for RFP No. F2025188, Annual Contract for Community Based Detention Services.

Discontinuation of Savanna® Platform

Dear Valued Customer,

Recently QuidelOrtho™ announced a strategic refocus of our molecular diagnostics approach reflecting evolving market conditions. As part of this shift, and after a thorough and thoughtful review, we have made the difficult decision to discontinue Savanna® platform development.

We remain committed to providing our customers with the highest quality products and service and apologize for any impacts this platform discontinuation may cause. While this news is still very fresh, we wanted to communicate at this point our intention to work closely with customers and partners to facilitate as smooth a transition as possible. Further details around the phased Savanna wind down will be provided as soon as plans and timelines are established.

Please be assured we will continue to support current Savanna customers during this transition. To ease the transition away from the platform, we will be implementing a "last time buy period" through May 31, 2026. Prior to that date, please coordinate with your QuidelOrtho Representative to place final product orders and confirm shipping schedules to accommodate your needs. We will continue to provide customer support through the associated expiration date of any purchased product.

In the meantime, please feel free to contact your QuidelOrtho Representative with any questions.

Sincerely,

Jim Baldrica
